Volunteer! It's Your OLLI

OLLI is run by our members on a volunteer basis. OLLI simply would not exist without the dedication of our volunteers. They are the creative source for all courses, clubs, special events, social activities, publications, and classroom services. Make new friends and connect with fellow OLLI members by volunteering. It’s satisfying and very rewarding—even life-altering, for many OLLI volunteers.

If you have been thinking about volunteering to work with a committee or program planning group, now is an excellent time to do so! YOU are important to our continued success. Spotlight on Volunteer Opportunities

OLLIE-News

E-News is seeking an associate editor to develop and manage feature articles, especially for the Inside OLLI Mason column. The person accepting this position will work with the chief editor to develop article topics, assign writers, and manage the process. Experience in project management would be a bonus, but anyone who is a good organizer could easily handle this task. We have a staff of excellent writers, but the option to write articles that appeal to you comes with the job. If you are interested, please contact Sheri Siessger at ollienergeditor@gmail.com to discuss.

Development Committee

The Development Committee’s mission is to plan and produce annual Friends of OLLI fundraising campaigns to fund Mason and other scholarship opportunities; fundraisers for special projects approved by the Board, such as Fall for the Book; printing of OLLI Ink, and other special needs, as well as fundraising events which benefit members, and promote members’ social interaction.

If you like to create, plan, and conduct fundraising events to benefit and expand our University, community partnerships, and to enhance social interaction for our members, we need your talents and help. Please contact Lesley Bubenkober for additional information at labubenkober@verizon.net or 703-250-8147.

Outreach Committee

OLLI’s long-term success depends on new members, and the Outreach Committee helps recruit them by (1) giving personal presentations to community groups, (2) encouraging print and broadcast reporters to write favorable stories, (3) staffing information booths at community conferences, (4) distributing brochures and other communication materials throughout Northern Virginia, and (5) encouraging current members to promote OLLI to friends and neighbors. The Outreach Committee welcomes any OLLI member, regardless of academic or life background, who has a desire to help OLLI grow by promoting it to the greater community. For additional information contact Dave Ryan at dryan6@gmu.edu; phone: 703-593-1008.

All About OLLI

Who We Are

The Osher Lifelong Learning Institute (OLLI) at George Mason University offers daytime courses, lectures, special events, and other activities during eight-week terms in the spring and fall, a four-week winter term, and a six-week summer program. There are no exams, no credits, no college degree required or offered, and no age threshold. Course leaders are qualified members of OLLI, George Mason University faculty, and others who enjoy sharing their knowledge. OLLI is particularly proud of its volunteer teachers and speakers, many of whom are well-known experts in their fields. The views expressed are those of the instructor and do not reflect the official policy or position of OLLI or George Mason University.

Members pay annual dues and that entitles them to attend as many activities as they wish, subject to space availability. There may be charges for materials and for some special events.

OLLI publishes an email newsletter (OLLI E-News), a catalog each term, an online membership directory, and the Member Handbook. An annual literary journal, OLLI Ink, and, from time to time, the Poets of OLLI collection are also published.

OLLI is one of many Osher Lifelong Learning Institutes affiliated with The Bernard Osher Foundation and is also a member of the Road Scholar Institute Network. OLLI is a nonprofit, equal-opportunity 501(c)(3) organization and does not discriminate on the basis of race, color, or national/ethnic origin.

F101 Let’s Turn It Into a Musical: A Celebration of What Makes Musicals Special
Mondays, 11:50–1:15, Nov. 7–Nov. 14
Two sessions
Instructor: Barry Bortnick
It seems just about anything—from Shakespeare to Gypsy Rose Lee’s memoirs to the signing of the Declaration of Independence to, most recently, the rise (and fall) of our first Secretary of the Treasury—has become the material for a musical. This new short course, richly illuminated with audio and visual clips, looks at examples that provide a window into the wonderfully rich process that has made that happen. We’ll review the places creators have turned to for material, the creative challenges and choices they faced, and the transformations they wrought that gave us that unique combination of song, dance, story, and stagecraft that makes musical theatre an experience so many treasure. Looking at legends like West Side Story and Gypsy, and shows in the process of becoming legends, as well as at lesser known delights, the course is a broad, affectionate portrait of musicals in their fascinating variety, and an exploration of what makes this uniquely American contribution to world culture so special.

Barry Bortnick, PhD, is a composer, lyricist, and book writer of musicals performed on both coasts and in London. He is the former program director, humanities, UCLA Extension and founding director of the UCLA OLLI. He received his PhD from Harvard University, where he did research on creativity and the development of interest in the arts. He has taught courses on the American musical at various OLLI’s around the country.

F102 Understanding Opera, Part 1
Mondays, 2:15–3:40, Sept. 19–Oct. 10
Four sessions
Instructor: Glenn Winters
This class is designed to prepare students to fully enjoy the first two productions of Virginia Opera’s 2016-2017 season. Productions covered are The Seven Deadly Sins, a one-act drama combining song and dance by Kurt Weill and Bertolt Brecht; Leoncavallo’s classic tragedy Pagliacci; and Rossini’s immortal comedy The Barber of Seville. Musical and dramatic analysis is illustrated with audio and video excerpts. The course is recommended for beginners and aficionados alike.

Dr. Glenn Winters has been Virginia Opera’s community outreach musical director since 2004. His adult education program, “Operation Opera,” reaches thousands of Virginians each season at numerous Lifelong Learning Institutes around the state. Winters’ book, The Opera Zoo: Singers, Composers and Other Primates, is available from Kendall Hunt Publishing. Winters is a composer as well, and his commissioned operas include works for adults and children alike.

Art and Music

F104  Music Sampler
Tuesdays, 9:30–10:55, Sept. 20–Nov. 8
Note time
Fairfax Lord of Life
Coordinator: Kathryn Hearden
Kathryn Hearden from the George Mason University School of Music will coordinate this course highlighting examples of the musical talent that abounds at Mason. Each week knowledgeable and enthusiastic professors from the Mason School of Music, often accompanied by their most promising students, will generously share their musical gifts in presentations that are varied, lively, informative, and entertaining.

F105  Drawing and Sketching Workshop
Tuesdays, 2:15–3:40, Sept. 20–Nov. 8
Fairfax Lord of Life
Instructor: Bill Parsons
Class limit: 14
Students with drawing experience will explore different drawing techniques, materials, and ideas. Projects will challenge students to more completely see the effects of light, dimension, scale, perspective, form, and composition, while drawing objects from life and from photographs. Students will be encouraged to exercise free expression and creativity, applying their own personal interests to produce work that is uniquely theirs, and using whatever medium suits their drawings. Projects will be started in class but usually finished outside of class. Weekly class discussions of finished work will help students further develop their talents. A basic drawing kit of pencils, charcoal, Conté crayons, ink pens, pastels, and paper appropriate to the medium will get us started.

Bill Parsons retired in 2012 from a 35-year career that began by teaching art to American soldiers and their families in Germany. He earned an MFA from Virginia Commonwealth University in 1978 and has worked as a furniture maker and designer, jeweler, silversmith, and ceramic artist.

F106  Seeing Like Your Camera Part 2
Thursdays, 9:40–11:05, Sept. 22–Nov. 10
Instructor: Stan Schretter
This class is a follow-on to Part 1 presented in Reston during the summer term. The major topics addressed during this class include:

- Making your images come to life, such as recognizing and removing image complexity, visualizing your composition, moving your eye through the picture space, and adding mystery to your images. This class will use videos from Lynda.com as part of the instruction and homework. In order to access these videos for free you MUST have a Mason G number and an active Mason email address before taking the class. They can be requested at any OLLI office and will take approximately three weeks to obtain. Please do this early so as to not miss important material.

Stan Schretter, an OLLI member, is an avid amateur photographer and has taught courses at OLLI for many years.

F107  Singing for Fun
Thursdays, 2:15–3:40, Sept. 22–Nov. 10
Instructor: Palmer McGrew
As the name says, we gather to have a good time singing songs popular from the ‘30s to today. Class members are encouraged to bring in songs they would like to sing. The only singing talent necessary is the desire to sing. We have a wonderful keyboard accompanist, a percussionist, and an occasional banjo. It’s a lot of fun.

Palmer McGrew, an OLLI member, is a longtime performer in church choirs, barbershop choruses and quartets, and the West Point Alumni Glee Club. He is also co-director of the Greenspring Choristers.

No class Oct. 12
Four sessions
Rose Gallery, Reston Community Center Lake Anne
Instructors: Anne Delaney, Jeanne Loveland
Reston’s tradition of making art and culture an everyday part of life in the community evolved with the creation of Initiative for Public Art Reston (IPAR). But how much do you know about public art? Join us and we will explore public art in general and public art in Reston through films that explore the work of well-known artists including Patrick Dougherty, JR, and Robert Smithson. Each session will include one or more short films on public art along with an introduction and discussion.

R112  Women Artists
Wednesdays, 11:50–1:15, Oct. 26–Nov. 16
Four sessions
Rose Gallery, Reston Community Center, Lake Anne
Instructor: Jeanne Loveland
Throughout history women artists have been creating art, but their work has been underrepresented in art history and in art museums. Fortunately, the tide is now turning. We will explore women artists through time, from the Renaissance to the present day. Many names will be new to you, but some like Georgia O’Keeffe, Louise Nevelson, Mary Cassatt, and Frida Kahlo will be familiar. These women were very talented artists who faced and overcame challenges because of their gender. See R111 for instructor information.

R113  Al Jolson: The World’s Greatest Entertainer
Thursdays, 9:40–11:40, Sept. 22–Oct. 27
Six sessions
Note time
Instructor: Marianne Metz
A consummate performer and master showman, Al Jolson was a superstar before the word was coined. Though he was born 130 years ago—and part of his career reflected times long gone—Jolson’s musical legacy inspired much of the entertainment industry we know today. This course will start with showings of the award-winning biopics The Jolson Story and Jolson Sings Again, and then we will discuss which parts were accurate. We’ll also view the “first talking picture,”
1927’s *The Jazz Singer*, and see a subsequent Jolson movie or two. However, Al Jolson made his mark long before he made movies. So, via rare audio and video of performances from 1911 onward, we will try to grasp why Jolson was known as the World’s Greatest Entertainer. If you are unfamiliar with Al Jolson, you’re in for a treat. Even if you think you know him, you ain’t heard nothin’ yet!

Marianne Metz has previously presented classes on Fred Astaire, Gene Kelly, Frank Sinatra, Alice Faye, Tom Lehrer, and classic American songwriters. She produces and hosts a weekly radio show, “The Melody Lingers On,” that features all of them and more.

**Wednesdays, 9:40–11:05, Sept. 21–Oct. 12**

**Four sessions**

**Instructor: John Gallant**

Starting with one artwork, we will trace historical connections moving both forward and backwards in time on a few interesting historical tangents. In Part 1 we looked at the themes of wealth and technology. Themes for Part 2 will address passion and ambiguity. For instance, starting with Artemisia
Gentileschi in the 17th century, we will look at how passion is portrayed in medieval art and in 19th century art. Other artists we will touch on include Jacques-Louis David, Gustave Caillebotte, and Maya Lin.

John Gallant is an avid art history buff, who loves sharing his interest in art. He is a retired computer scientist, software development manager, and adjunct professor of computer science. Gallant received his PhD in computer science from Princeton and has worked at a variety of telecommunications and Internet companies developing new software technology.

L117 The Making of Impressionism
Thursdays, 9:40–11:05, Nov. 3–Nov. 10
Two sessions
Instructor: Adrienne Wyman Kralick
The Impressionists are known for painting outdoors, in natural light, capturing fleeting effects of light for a fresh, seemingly effortless effect—with colors that sing, water that sparkles, and wind you can feel. But how did they do that? Claude Monet once said, “When you go out to paint, try to forget what objects you have before you, a tree, a house, a field or whatever... merely think here is a little square of blue, here an oblong of pink, here a streak of yellow, and paint it just as it looks to you, the exact color and shape, until it gives your own naïve impression of the scene.” Today, we think of Impressionism as one of the most popular art movements in history, but that was not always the case. In this two-part lecture, artist and teacher Adrienne Kralick will give her unique behind-the-easel view of Impressionism by examining paintings from an artist’s perspective and reviewing how they were created in the world of their time. Adrienne Wyman Kralick is a working artist who gives museum tours and teaches painting, focusing on the techniques employed by different artists throughout history. She works at the Smithsonian and is a visiting instructor at other venues, leading tours of France in the path of the Impressionists, from Paris to the beaches of Normandy. Learn more at www.AdrienneArtist.com.

F202 The Tom Crooker Investment Forum
Wednesdays, 11:50–1:15, Sept. 21–Nov. 9
Fairfax Lord of Life
Moderator: Al Smuzynski
The Investment Forum, which meets weekly throughout the year, addresses investment topics of particular interest to retirees. A weekly agenda is distributed, and each session begins with open discussion of recent events in the economy and in financial markets, and their impact on investment decisions. F203  An Economics Potpourri
Thursdays, 9:40–11:05, Sept. 22–Nov. 10
Coordinator: Leo Brennan
We are again fortunate to have a talented team of George Mason economists return to OLLI. In the complex global economy of this century, today's economists delve into a wide array of research topics both in a traditional sense and in areas seldom considered in the past. Prepare to be intrigued, provoked, dazzled and enlightened on topics that we may seldom consider in economic terms.
● Oct. 13: Economics research topics. Mark Koyama. New to OLLI, Mark is prepared to educate and enjoy the OLLI experience.
● Oct. 20: Economics research topics. David Eil enjoyed last year so much, he's back again.
● Oct. 27: Economics research topics. Dan Houser is chair of the Economics Department, and he always delights.
● Nov. 3: The Age of Em: Work, Love and Life when Robots Rule the Earth. Robin Hanson.
● Nov. 10: The Economy of Cuba. Carrie Meyer.

F301 The Frontiersmen
Mondays, 11:50–1:15, Sept. 26–Oct. 24
Five sessions
Instructor: Jim Anderson
From the earliest New World settlements, the proximity of those vast, wild and unsettled spaces in North America has had a significant impact on the history of our nation. It also has influenced our character as a people, distinct from our European roots. This series will be in two parts of five lectures each in the fall 2016 and spring 2017 sessions. In the first five lectures, we will outline the academic origins of the “frontier thesis,” discuss the frontier concept in popular literature and media, and examine the concept through the biographies of individuals who were on the leading edge of our national expansion westward and who exemplified many of the traits that have come to be associated with the “American Character.” These will include Robert Rogers, Daniel Morgan, Simon Kenton, and Tecumseh. Jim Anderson spent 27 years with the CIA, including tours in Europe, Africa, the Middle East, and Far East. He holds degrees in history from Rhodes College and the University of Memphis. For the past ten years he has conducted corporate leadership training seminars featuring Civil War battlefield visits. He has been an instructor at OLLI for the past 8 years, teaching courses and leading tours focusing on American history.

F302 The Rockefeller Giants
Tuesdays, 9:40–11:05, Oct. 18–Nov. 8
Four sessions
Instructor: Douglas W. Hottel
John D. Rockefeller Sr. was the richest man in the world and was vilified as the most ruthless businessman in American history. Nelson A. Rockefeller, his grandson, was a progressive Republican politician and philanthropist who went his own way and carved out a remarkable public and private career. Together they exerted a profound and lasting legacy that impacted our national economy, medicine, art, domestic politics, and international relations. Driven by complex emotions and raised in unusual circumstances, these men were never ordinary, and often controversial. They stand out as the most prominent members of an American dynasty. Douglas W. Hottel has been an OLLI member since 2010, and this is the sixth course he has taught. Hottel received a BA in history/political science from Bethany College, an MA in international affairs from the Catholic University of America, and an MA in national security and strategic studies from the US Naval War College.

F303 More Tales from the Back Stairs
Tuesdays, 11:50–1:15, Sept. 20–Oct. 11
Four sessions
Instructor: Linda Cunningham Goldstein
● Sept. 20: The Confidential Life of George Washington: stories of how he actually dealt with slavery; his religious beliefs; his love life prior to Martha; and how the acquisition of a great deal of wealth cannot be all bad
● Sept. 27: You’ve Come a Long Way, Baby: Surviving as a Virginia woman in the 18th and 19th centuries
History

- Oct. 4: Behind the Scenes at the Frank Lloyd Wright House and more “Ghosts of Woodlawn” from personal accounts
- Oct. 11: Eating, Bathing, and Off to Bed, from medieval times to the Downton Abbey period

Linda Cunningham Goldstein returns with more stories from personal family history. She or a family member were witness to many of the stories related here, some of which would require a FOIA request to unearth elsewhere. As the former executive director of Woodlawn Plantation and Frank Lloyd Wright’s Pope-Leighey House for The National Trust for Historic Preservation, she knows where the tulips, and other things, are buried. She holds an MFA in visual arts, an MA in museum and curatorial studies under the Winterthur Program with the National Trust, and an MA in fine and decorative art and design from Sotheby’s Institute of Art.

F304 Explosive Exposés from Watergate to Snowden
Tuesdays, 11:50–1:15, Oct. 18–Nov. 8
Fairfax Lord of Life
Four sessions
Instructor: Burt Wides

The instructor has spent about 55 years in Washington, working on most of the domestic and foreign issues in the headlines. He will focus on some key events in his career, such as the Watergate Affair, the Pentagon Papers, the Senate Select “Church Committee,” and the post-9-11 wars and surveillance. In the class he will assess their impact on Congress, the Executive Branch, the Judiciary, and the media, as well as the electorate’s views of Washington.

Burt Wides is a graduate of Harvard College and Harvard Law School. He served as chief counsel to Senators Phil Hart, Paul Sarbanes, and Ted Kennedy, and as deputy chief counsel of the Senate Judiciary Committee. He led the investigations of the CIA for the “Church Committee,” and was counsel to President Carter for oversight of all US intelligence activity. In legislative matters, he wrote the original Campaign Finance Law, and helped write the ’70, ’76, ’82, and ’06 Voting Rights Acts, the War Powers Resolution, the presidential executive order barring assassinations, and the requirement that presidents report covert activities to Congress.

F305 The Elections of Our Youth: Theodore White and The Making of the President Series
Tuesdays, 2:15–3:40, Sept. 20–Oct. 11
Fairfax Lord of Life
Four sessions
Instructor: Greg Cleva

Do you remember watching the Nixon-Kennedy televised debates? Was Barry Goldwater really “right from the start”? Were you “clean for Gene” or did Robert Kennedy capture your imagination? JFK, LBJ, HHH, RFK; the silent majority; the tumultuous 1960s; Chicago 1968; Watergate—what did these things mean to you? And who, for heaven sakes, was William Miller? This four-week class will deal with the presidential elections of 1960-1972—elections in which many of our OLLI members first voted. The journalist/historian Theodore White wrote about these elections in his remarkable The Making of the President series. In addition we will discuss the role and meaning of presidential elections as defined by Nelson Polsby, who has written widely on the subject. The class will run in parallel with the unfolding events of the 2016 election by way of deepening an understanding of the American electoral process.

Greg Cleva has a PhD in international politics from the Catholic University of America and is a retired foreign affairs analyst with the Department of Defense.

F306 Journalism and Politics in Modern America
Tuesdays, 2:15–3:40, Oct. 18–Nov. 8
Fairfax Lord of Life
Four sessions
Instructor: David Heymsfeld

The media has been called “The Fourth Branch of Government” to recognize the critical role the media plays in determining what political issues are important and how they will be evaluated. This course will present a brief history of the evolution of media. We’ll begin with partisan newspapers that were controlled by political parties in the early days of our country. We will then consider the role played by independent papers, such as the Hearst and Pulitzer empires of the late 19th century. We’ll examine the evolution of media coverage from the mid-20th century mainstream press, weekly newsmagazines, and TV network news, to today’s more complex structure of partisan talk radio, cable news, and digital media. After an historical overview we’ll consider
more specifically how the media have influenced history in the 20th and 21st centuries, particularly:
• Investigative reporting, including the muckrakers, as well as Woodward and Bernstein on Watergate
• Editorial opinion, including Murrow on McCarthy and Cronkite on Vietnam
• Influential “pundits,” including Walter Lippmann and Rush Limbaugh
• TV and photographic images, including civil rights, Vietnam, and presidential campaign debates
• Reporting of wars, particularly contrasting World War II and Vietnam

David Heymsfeld, an OLLI member, served on the professional staff of the House Transportation Committee for 35 years. He has long been interested in modern American history and is a volunteer guide for the Newseum.

F307 Civil War Potpourri
Wednesdays, 11:50–1:15. Sept. 21–Nov. 9
Instructor: Patrick McGinty
Countless Civil War studies have been written about the contributions of various groups in the war. These include German-Americans; Irish-Americans; African-American Union troops, such as the 54th Massachusetts infantry regiment; and the average soldier (male, Caucasian, and Christian). The emphasis in this course will be on the contributions of “overlooked” groups who fought in the Civil War.

Topics examined will include, but will not be limited to, the following: Jews in the Civil War, African-American Confederates, women combatants, child soldiers, and other topics that arise as the course develops.

Patrick McGinty, an OLLI member, is a retired naval officer with an MA and PhD in history from Georgetown University. He has taught various history, political science, and psychology courses in Texas, Maryland and Virginia. His areas of specialization at the University of Maryland: the history of terrorism, the history of violence in America, and the history of substance abuse in America.

F308 The Silk Road: The Gobi Desert and Beyond
Thursdays, 11:50–1:15, Oct. 20–Nov. 10
Four sessions
Instructor: Robert Springer
Class limit: 45
For 1,500 years the Silk Road provided the only land contact between the east and west and was the route followed by Marco Polo and many others in their travels. The great camel caravans that crossed searing deserts and tortuous mountain passes carried valuable cargoes that brought prosperity and culture to the regions it touched, but also had a long term impact on world civilization itself. In these four classes we will discuss a number of special topics related to the Central Asian and Middle Eastern countries through which the route passes. These include such important subjects as how the route was used for commerce; inventions from China, such as the compass, which changed Western Europe; the spread of religions and cultures along the Silk Road; and how it was used by conquering armies, especially the Mongols, to spread their control over much of the ancient world. For those of you interested in traveling to this area, we will discuss some travel opportunities along the Silk Road.

Robert Springer is a professor emeritus at American University where he taught for many years and was a department chairman. Springer also lectured at Loyola University, and the universities of Hawaii and Utah. His academic background includes the US Military Academy at West Point, Stanford University, Georgetown University and George Washington University.

F309 1787-1789: A New Government and Three Presidents
Thursdays, 2:15–3:40, Sept. 22–Nov. 10
Fairfax Lord of Life
Coordinators: Brad Berger, Emmett Fenlon
The year 1787 proved to be monumental for the fledgling United States of America. As spring evolved into summer, a convention held in Philadelphia by delegates of the states created a document which proved to be the framework of an entirely new government. The ratification of the plan ended the days of the Articles of Confederation. Little did the delegates know that the influence of this document, the Constitution of the United States of America, would also serve to shape the form of governments outside American borders for centuries to come. This is the story of that formidable document and the government it created. Within its framework, three titans of our independence, George Washington, John Adams, and Thomas Jefferson, guided the nation in the new era. Each had distinct notions of how the new machinery of government would work and the powers and limitations afforded them in their roles as Chief Executive.

National Park Service rangers have participated with OLLI in over 80 thematic courses, special events and trips since 2001.
R310 Coastal Potpourri and Legends  
Mondays, 11:50–1:15, Oct. 17–Oct. 31  
Three sessions  
Instructor: Raoul Drapeau  
- Oct. 17: Caribbeana. This potpourri introduces attendees to the great variety in the islands and people of the Caribbean Sea. Learn some little-known facts about the area, including historical oddities, unusual political constructs, lost gold, bizarre natural phenomena, harnessing the Gulf Stream, and more.  
- Oct. 24: Maritime Mysteries and Monsters. Over the ages, there have been many legends and reports of strange objects and animals in lakes and oceans, such as the Loch Ness Monster, undersea buildings, the Bimini Road, and Atlantis. We will examine these and see which ones are even possible.  
- Oct. 31: Speedway to Sunshine. Henry Flagler built a long, but short-lived, railroad line from Miami to the Florida Keys to help his rich friends travel south for the winter, as well as boosting trade with Cuba, Latin America, and the Panama Canal builders. With some justification, it is also called Flagler’s Folly.  
Raoul Drapeau graduated from Rensselaer Polytechnic Institute with a master’s degree in electrical engineering. Most recently he has worked as principal and co-founder of several high-tech firms in the Washington, DC area.

R311 History of Immigration in the United States  
Tuesdays, 9:40–11:05, Sept. 20–Oct. 11  
Four sessions  
Instructor: Richard Stillson  
When I was growing up in California in the 1950s, a question sometimes asked of any new kid was “What are you?” The question was understood to mean “What country did your family come from?” or “What is your nationality?” The expected answers were Irish, English, French, Mexican, Chinese, or any nationality other than American. Although their families may have first come to the United States many generations ago, somehow the immigrant status of families was still considered important, even among kids. While we are a nation of immigrants, immigration has been a controversial issue since John Adams’ Alien and Sedition Acts of 1798, and continues to be one of the most provocative issues in our very contentious politics. What is “American culture” in a country that is constantly changing because of the mix of immigrants, each maintaining large parts of their original culture? This course will help put these questions and the broader issues in context by looking at the detailed history of immigration in the United States.

Richard Stillson has a PhD in economics from Stanford. After a career at the International Monetary Fund, he retired to indulge his passion for history and earned a PhD in history from Johns Hopkins. Stillson is the author of *Spreading the News: A History of Information in the California Gold Rush.*

R312 Irish History: Fintan the Wise to Fianna Fáil  
Tuesdays, 11:50–1:15, Sept. 20–Nov. 8  
Instructor: Kevin Barry Deasy  
Included in the Irish Diaspora are some 30 to 40 million Americans—and many OLLI members. If you wonder what your restless ancestors were up to before they left the Auld Sod, this broad survey of Irish history covers 10,000 years, from pre-Celtic artifacts and ancient legends to the founding of the Irish Free State. In between, you’ll find Fomorians, Gaels, Vikings, monks, Galloglasses, Saxons, Normans, Spaniards, Frenchmen, High kings, English kings, invasions, battles, plantations, risings, spies, informers, Unionists, Republicans, Black-and-Tans, the Anglo-Irish War of Independence, and a nasty civil war. OLLI member Kevin Barry Deasy hails from a long line of Irish rebels (and is named for one who got caught and hanged). Nevertheless, he cautions that neither the Loyalist narrative nor the Republican narrative can, by itself, convey the whole truth of Ireland’s turbulent history. A retired US Army officer, Deasy holds a BS in electrical engineering from Northeastern University, and MS degrees in computer science and business management from George Washington University. He has worked as an engineer and manager at several government contracting firms around the Washington beltway, most recently at Northrop Grumman.

Since its first session in 1790, the US Supreme Court has risen from a body with little power and prestige to become the most powerful and prestigious judicial institution in the world. Its decisions have profoundly shaped not only American law, but also our society, as the nation has grown dramatically in population, geographical expanse, and racial and ethnic diversity. We will examine how the court has acted on such diverse issues as federal and state power, economic regulation, slavery and segregation, political protest, religion, abortion and gay rights. And we will also take a look at what’s happening at the court today.
Ben Gold has a BA in political science from Stanford University and earned an MS in computer science. He has served as a docent at the Supreme Court for the past 15 years.

Three lecture sessions will explore the spread of the bubonic plague from its start in central Asia to its culmination in western Europe. Topics will include epidemiological theories, religious responses, contemporary scientific explanations, persecution as a response, and the economic and cultural repercussions.

L318  Engineers of Victory: Problem Solvers Who Turned the Tide in the Second World War
Tuesdays, 9:40–11:05
Sept. 20–Sept. 27, Oct. 11–Nov. 8, No class Oct. 4
Seven sessions
Instructor: Mark Weinstein
How did the United States go from a small, poorly equipped military in 1940 to the massive military of 1945? Most warfare discussions concentrate on leaders’ grand strategies. This course differs; it focuses on how national strategies were implemented by mid-level and often invisible ordinary soldiers, scientists, engineers, and businessmen through advancements in technology and management.
● Part 1 “Arsenal of Democracy” discusses how US industry, particularly automotive, was restructured and reorganized beginning in pre-war 1940.
Literature, Theater and Writing

- **Part 2** discusses how the British Admiralty used the new field of Operational Research to stretch limited resources to defeat German submarines, and then revolutionize the way wars are planned, waged, and won.
- **Parts 3 and 4** discuss individual technological leaps that provided the Allied forces with the tools to overcome specific Axis capabilities. The 1943 Casablanca Conference laid the grand design for the invasion of Europe and the eventual campaign against Japan. That was easy; then came the most massive planning and supplying operation in history.

Mark Weinstein, a nine-year OLLI member, is a retired electrical engineer and a docent at both Smithsonian Air and Space Museums. He started building model aircraft when he was 10 and continued through a career in the active and reserve Air Force. He is a history buff, news junkie and is intrigued by technology. In his wild youth and single days he flew a Piper Tri-Pacer.

**L320 Zelikow’s Take on the 20th Century, Part 4**

- **Wednesdays, 9:40–11:05, Sept. 21–Oct. 12**
- **Four sessions**
- **Moderator:** Ray Beery

This is the last of four blocks comprising University of Virginia Professor Philip Zelikow’s online course in world history. In this course we care about chronology, and we care about individuals. Without some careful attention to sequences of cause and effect, without tracing how big changes come from the choices made by particular people, history can turn into just a series of descriptions, a somewhat tiresome recitation of one thing after another. So beyond offering a set of remarkable stories, this course gives you experience in how to analyze a situation and think about the problems of explaining change. The four-week, massive open online course (MOOC) will be viewed in class, with an hour of video instruction each week. There will be live interaction. The course is from Coursera, an educational website that partners with some of the world’s top universities, including the University of Virginia, to provide free online courses.

Ray Beery is a member of the OLLI Board of Directors and frequent teacher.

**L321 The Elections of Our Youth: Theodore White and The Making of the President Series**

- **Wednesdays, 11:50–1:15, Sept. 21–Oct. 12**
- **Four sessions**
- **Instructor:** Greg Cleva

This is a repeat of F305.

**L322 America’s Civil War Up Close and Personal**

- **Thursdays, 11:50–1:15, Sept. 22–Nov. 10**
- **Instructor:** Keith Young

This course will cover several topics dealing with how the American Civil War was fought on land and at sea, including who was doing the fighting and how they conducted themselves. General Order Number 100, which was issued during the war, was an early attempt to define the rules of war. We will discuss the fate of captured soldiers on each side as they went to prisoner of war camps.

Keith Young, a retired naval officer with an interest in military history, lectures on many Civil War and World War II topics.

**L319 Légion Étrangère d’Français: Then and Now**

- **Tuesdays 11:50–1:15, Oct. 4–Oct. 11**
- **Two sessions**
- **Instructor:** Michael Kastle

The purpose of this course is to provide a short and concise history of the Légion Étrangère—the French Foreign Legion—from its troubled founding in the war-torn early 19th century through its various adventures in Africa, the French-Mexican War, two World Wars, the Near East, and the Far East. The course will include descriptions of the Legion’s major battles, expeditions, uniforms and equipment, as well as its current makeup and where it is stationed today.

Michael Kastle is an OLLI member. He has an engineering degree from the Illinois Institute of Technology and is a registered professional engineer in the state of Illinois. He retired from US government service in 2007, having spent over half of his 25 years of service in overseas locations.

**L400 Literature, Theater and Writing**

**F401 Shadow Divers: Solving the Mystery of “U-Who”**

- **Mondays, 9:40–11:05, Sept. 19–Oct. 10**
- **Four sessions**
- **Instructor:** Beth Lambert

In 1991 two recreational scuba divers, Robert Chatterton and Richie Kohler, set out to discover the
identity of a WWII German U-boat they had found deep in the Atlantic Ocean off the coast of New Jersey. Strangely, neither the German nor the United States navies had any record of a U-boat lost in those waters. The search took the two divers down 260 feet into the Atlantic Ocean and also across that ocean to Germany. In his book Shadow Divers, journalist Robert Kurson gives a compelling and accurate account of Kohler and Chatterton’s seven-year quest to discover the name of the U-boat they dubbed “U-Who,” the reason it sank, and the identity of the 56 German crew members whose bodies were still on board. Kurson does a masterful job of weaving together the technical aspects of deep sea diving and German U-boat protocol with the emotional impact of the venture on the lives of all those involved—those who were lost on the U-boat and those who were lost discovering it. Reading assignments will be given ahead of time; the book can be purchased in soft cover, or a Kindle edition. Beth Lambert, an OLLI member, is a retired professor of English at Gettysburg College, where she taught courses on all aspects of 18th century England. At OLLI she teaches some of her favorite subjects (with Jane Austen’s novels ranking high among them), and she loves sharing them with OLLI members.

Clifton Lord of Life
Coordinators: Michelle Blandburg, Dave Mason, Mo Mason, Pati Rainey, Kathie West
Class limit: 28
OLLI’s Readers’ Theater is great fun for the “secret actor” in all of us! Scripts are usually monologues, short skits, and acts or scenes from longer plays. Parts may be handed out in advance or read cold. No memorization is required. We rehearse before class; rehearsal can also be by phone when necessary. Props or costumes are not required. If you’ve tried RT before and dropped out, come back. We are always trying new things!

Learn to write about your individual and shared history in ways that will clarify your vision, whether you are looking into your past, documenting your present, or contemplating your future. During class there will be some writing exercises in response to prompts, such as quotations, music, and video clips. We’ll also share some ideas on memoir techniques. Dianne Hennessy King is a cultural anthropologist, writing instructor, editor, and television producer. F405  A Novel for All Seasons: Hemingway’s The Old Man and the Sea
Tuesdays, 11:50–1:15, Sept. 20–Nov. 8
Instructor: Donna Macurdy
The Old Man and the Sea is considered to be Hemingway’s finest novel. Written in direct response to his critics, the old man is a reflection of Hemingway himself. Published in 1952 in Life Magazine, the story resulted in the sale of over five million issues in 48 hours. Released in hardcover, the story remained on the best seller list for six months. Join me on the journey to “catch the one” that almost got away. Sail the waters of the Cuban coast with the old man. Then decide if Hemingway achieves what he set out to do, i.e., “to succeed when others believed he would fail.”
Lecture and small group discussion will be a part of each class. In order to capture the mood of the journey, we will also be viewing Spencer Tracy’s highly acclaimed portrayal of the old man in the 1958 movie. **Donna Macurdy** is a retired Fairfax County high school English teacher. Donna has a MEd in curriculum and instruction from George Mason University and a BA in English and speech communications from the University of Denver. Donna has taught a number of literature classes at OLLI including *The Great Gatsby* and *To Kill a Mockingbird*.

*Tuesdays, 2:15–3:40, Sept. 20–Nov. 8*  
**Moderators:** [Mike McNamara](mailto:), [Jan Bohall](mailto:)

**Class limit:** 16

This workshop allows both novice and experienced poets the opportunity to share their work and receive suggestions for improvement. Workshop members should bring an original poem in draft or revised form to each session. Two poems should be sent to the Tallwood office for duplication one week before the first class meeting and a third poem brought to the first session. The moderators will email students after registration to let them know exactly when and where to send their poems for the first class.  

**Mike McNamara,** an OLLI member, has been published in several literary journals and magazines and has received awards from the Poetry Society of Virginia.  

**Jan Bohall,** also an OLLI member, has had poems published in various periodicals and has won awards from the Poetry Society of Virginia.

**F407  The Literary Landscape**  
*Wednesdays, 9:40–11:05, Sept. 21–Nov. 9*  
**Instructor:** [Kay Menchel](mailto:)

In this survey course, we’ll look at a number of different literary devices, such as metaphor, allegory, free indirect discourse, and irony. We’ll discuss how they enrich and complicate storytelling, and how they have evolved concurrently with literature’s various narratological forms. As modern readers, we are so accustomed to figurative language and other aesthetic techniques that we frequently fail to notice them. However, when we do, they can open up a text, revealing entirely new dimensions of meaning.  

**Kay Menchel,** who grew up in Yorkshire, England, is a lawyer who also holds an MA in English literature from George Mason University. She has taught numerous literature classes and always enjoys sharing her passion for English literature with OLLI members.

**F408  Henry Fielding’s *Tom Jones***  
*Wednesdays, 11:50–1:15*  
*Sept. 21–Oct. 12, Oct. 26–Nov. 16, No class Oct. 19*  
**Instructor:** [Ellen Moody](mailto:)

**Class limit:** 25

We will read Henry Fielding’s *Tom Jones* in the context of his age and his several careers: dramatist, attorney-magistrate, journalist, and novelist. As we read the book, we’ll focus on the slippery narrator, the evasive nature of the text, and discuss themes of power, sex, commerce, the pursuit of happiness, and the masks of social and psychological life. We’ll see how its pictures derive from Hogarth, and how it connects to Swift, de Sade, and Jane Austen. In the 20th century it was adapted into oddly innocent films filled with wild hilarity, savagery and sexual salaciousness, while at the same time sermonizing benignly at us. Can you imagine a world without novels? This is one of the books that established the genre.

**Ellen Moody** holds a PhD in English literature from the Graduate School of City University of New York (CUNY). A lecturer for over 30 years, her last position was at George Mason University. She has published numerous essays, reviews, and editions of four texts on 18th century literature, women’s studies, and film adaptations.

**F409  An Acting Workshop for the Serious Actor**  
*Thursdays, 9:40–11:05, Sept. 22–Nov. 10*  
**Clifton Lord of Life**

**Instructors:** [Wendy Campbell](mailto:), [Manny Pablo](mailto:), [Kathie West](mailto:)

This is an acting class for those mature actors among us who want to hone their acting skills by working seriously on a script until they truly understand the character they are portraying. Over time, and with constructive criticism and input from our fellow thespians, we will work to sharpen such things as inflection, voice projection, physicality, focus and blocking while retaining spontaneity and the making of fearless choices. We will try to decide what kinds of props are necessary for the understanding of the action. In short, we would like to gather a few actors together who want to improve their acting skills. All participants will practice a number of roles, with the intent to audition at the end of the term for an available part in a spring production of one or more of the plays. Participants must purchase scripts. Information will be provided.

F411 Haiku for Fun, Understanding, and Maybe Some Satori
Thursdays, 11:50–1:15, Oct. 20–Nov. 10
Four sessions
Instructor: Mike McNamara
Class limit: 20
While most here in the United States and in other countries are somewhat aware of Japanese haiku, that understanding is just the proverbial tip of a rice field. For all its brevity, haiku has more rules, rewards and quirks than almost any other form of poetry. We’ll examine the foundations of haiku, what it is and does. We’ll also revue its often raucous and ironic sister, senryu, and provide the means and time for individuals to try their hand at these unique poetry forms. (This is a revised and updated version of a class given at Tallwood in December 2014.)

Mike McNamara, a retired Army infantry colonel, has degrees in English from Rutgers University and the University of Kansas. He is also a graduate of the NATO Defense College in Rome and the Royal College of Defence Studies in London. He has taught at several colleges in the US and abroad, and is a co-moderator of the OLLI Poetry Workshop. A published and award-winning poet, he has generally lectured on international poetry and Shakespearian tragedies at OLLI. He and his wife have collected Japanese graphic art for the past 30 years.

R413 The Strangeness of Edgar Allan Poe
Mondays, 9:40–11:05, Sept. 19–Oct. 10
Four sessions
Instructor: Conrad Geller
Edgar Allan Poe was the first American to earn worldwide fame as a writer, and his works are still widely admired more than 200 years after his birth. Poe is also credited with the invention of the modern horror and detective story genres. By consensus, he is one of America’s foremost poets; “The Raven” is possibly the best-known poem in the English language. His life was an absolute mess, but all of his writings show enormous discipline, skill, and attention to detail. In these four sessions we will examine the great variety of his work, both prose and verse. Texts will be available online, and at the OLLI DocStore.

Conrad Geller, an OLLI member, is an avid though inexpert reader of English literature. Previous courses he has taught at OLLI include “Strictly Sonnets,” “English Ain’t What You Think,” and “Selections from Chaucer’s The Canterbury Tales.”

R414 Two by Virginia Woolf
Mondays, 11:50–1:15, Oct. 17–Nov. 7
Four sessions
Instructor: Linda Blair
One of the most enigmatic and powerful female writers of the 20th century, Virginia Woolf focuses on two significant issues: women and the unconscious self. In order to understand her position as a woman in a male-dominated educational world, we will study in detail A Room of One’s Own in one session. In the second, third, and fourth sessions we will discuss To the Lighthouse, a three-part stream of consciousness novel spanning approximately 10 years, during which time World War I began and ended. Through close textual readings of both works, along with clips from the film version of To the Lighthouse, we will evaluate the juxtaposition of aspects of feminism with the life of the imagination.

Linda Blair, a retired Fairfax County high school English teacher, English department chair, and International Baccalaureate diploma program coordinator, earned her doctorate in American literature at The George Washington University.

L420 The Sonnets of William Shakespeare
Wednesdays, 11:50–1:15, Oct. 5–Nov. 9
Six sessions
Instructor: Karen Miles
The 154 sonnets of Shakespeare treat issues that we still wrestle with in our own lives. They include the inevitability of death and physical decay, the fickleness and treachery of people, the vanity of worldly achievements, the nature of true and false love, the tension between our physical and spiritual selves, the qualities of good poetry, and the power of art. Remarkably, the sonnets distill these experiences into rigidly structured poems of just 14 lines and use familiar images from nature and the everyday world. We will also explore the nature of the collection itself. To what extent are the sonnets a collection of discrete lyrical reflections whose order is arbitrary and random? To what extent do the sonnets recount the progression of the relationships among a poet, his young male friend, his mistress, and a rival poet or two? The recommended text is Shakespeare’s Sonnets (Folger Shakespeare Library), edited by Barbara Mowat and Paul Werstine. Karen Miles holds a PhD from the University of Wisconsin-Madison, in French literature. She taught at Marquette University and the University of Wisconsin-Parkside before becoming a program officer at the National Endowment for the Humanities. Since retiring, she has co-taught several courses at the Washington National Cathedral, including one on Shakespeare’s sonnets.

F602  Jesus’ Final Week and the Beginnings of Christianity
Tuesdays, 11:50–1:15, Sept. 27–Nov. 8
Seven sessions
Instructor: Steven C. Goldman
The last week of Jesus’ earthly ministry provides many foundations for the birth of Christianity. However, there are major disagreements regarding the spiritual meaning and historical understandings of events that transpired during that final week. Our analysis will include texts within the New Testament as well as sources from non-canonical writings. Major issues we will explore include the following:
● Why was Jesus welcomed on Palm Sunday and rejected later in the week?
● Did Jesus declare himself to be Messiah? Did he declare himself to be God? Or did others say this about him?
● Did Jesus seek to overturn the existing religious order? Did he pose a threat to Roman rule?
● What was the intent of his commands at the Last Supper?
● What did Jesus teach about “end times”? Who was responsible for the execution of Jesus?
● Did Jesus physically rise from the dead? How do we explain the different accounts of the Resurrection?
● How are we to understand Jesus’ teaching regarding his “Second Coming”?
Steven C. Goldman is the chair of OLLI’s Religious Studies Program Planning Group and has taught numerous courses on alternative understandings of Biblical doctrine.

F603  The Theology of Les Miserables
Tuesdays, 2:15–3:40, Oct. 18–Nov. 8
Four sessions
Instructor: Steven C. Goldman
Sacrifice, forgiveness, the refusal to accept forgiveness, repentance, redemption, law, justice, grace, mercy, pride, greed, humility, and perfected love are some of the grand themes of the human condition explored in Victor Hugo’s classic 19th century novel Les Miserables. We will examine how it presents a romantic, sublime theology that challenges us regarding our own ethical standards and interpersonal relationships.

See F602 for instructor information.

F604  Religion in American History
Wednesdays, 9:40–11:05, Oct. 19–Nov. 9
Four sessions
Instructor: John Turner
English author G.K. Chesterton once described America as “a nation with the soul of a church.” Other Europeans commented that while American religion was less bland than its cuisine, it was just as baneful. In this course, we will survey the history of religion in America, that is, in the geographic region that became the United States. In four weeks, we will discuss Puritanism and its encounter with the New World; religion and the American founding; Catholics, Mormons, and Jews, and movements against them; and the rise and fall of the Religious Right.
John Turner teaches in the Department of Religious Studies at George Mason University. He has written several books on the history of religion in the United States and is currently at work on a history of Plymouth Colony.

F605  Women of the Bible: Saints, Vamps and Vixens
Thursdays, 11:50–1:15, Sept. 22–Oct. 13
Four sessions
Instructor: Stephen Ruth
Were Jezebel, Delilah and Bathsheba misunderstood? Which Bible women would be successful as leaders today? There are dozens of significant women in the Old and New Testament who are relatively little known today: Lilith, Queen Athalia, Saphira, Rahab, two Tamar’s, Lydia, Hulda, Abigail, Priscilla, the widows of Zelophehad, sisters Martha and Mary, plus others who are well known, like Sarah, Esther, Mary Magdalene and Mary the mother of Jesus. In this course we will examine as many as eighty of these intriguing women, whose reported deeds range from heroic to treacherous and profane. We will concurrently review some of today’s public policy issues that these great personalities faced, such as women’s rights, punishments for rape, inheritance rules, women in government, abortion, and many more. We also will briefly examine the roles of a few of these Biblical women as they are mentioned in the Muslim tradition, in the Holy Koran. No religious training is needed and
the course is open to all persons, regardless of faith

**Professor Stephen Ruth**, a long-time OLLI presenter, taught an OLLI course called “Is America a Christian Nation?” and is currently teaching two technology courses in the graduate school of public policy at Mason. This OLLI course will reflect his background as an amateur Bible scholar. He is the author of the book *One Year Trip Through the Bible: Daily Readings and Reflections: A Layman’s Fresh Perspective on The Complete Old and New Testaments.*

**R606 Catholic Social Thought in the Modern Era**  
*Mondays, 11:50–1:15, Sept. 19–Oct. 10*  
*Four sessions*

Instructor: **Gregory Cleva**

The beloved Brazilian archbishop, Dom Helder Camara, once remarked, “When I give food to the hungry they call me a saint. When I ask why the poor are hungry, they call me a communist.” It is an unfortunate fact that many Catholics, as well as members of other religions, are unaware of the rich tradition of social teachings and social justice in the Catholic faith. Moreover, the US Catholic Conference of Bishops noted that this lack of understanding weakens the Church’s capacity to be faithful to the demands of the Gospel. This four-session course deals with the social teachings of the Catholic Church in the modern era. The first and second classes will highlight the principal teachings themselves, as well as their historical and scriptural basis. The third and fourth classes will focus on the recent emphases in these teachings, particularly the primacy Pope Francis affords to the “preferential option for the poor.” Please join us for this lively and informative discussion. Everyone is most welcome.  
*See F305 for instructor information.*

**L608 Introduction to Rabbinic Judaism**  
*Tuesdays, 11:50–1:15, Oct. 18–Nov. 8*  
*Four sessions*

Instructor: **Gilah Goldsmith**

For over a thousand years, Jewish thought and practice have been shaped by the writings of the classical rabbis: the Mishnah, Midrash and Talmud. In the aftermath of the destruction of the Second Temple by the Romans in the year 70 CE, these rabbis transformed a religion based on animal sacrifice and national identity into one based on the sanctification of daily life through prayer, study and ethical conduct. This course will survey the basic beliefs of these rabbis, how they expressed those beliefs, and how those beliefs have structured the lives and thought of the Jewish people ever since.

- **Oct. 18:** Scribes, Pharisees, and Sages: the origins and sources of Rabbinic Judaism from a historical and literary perspective.
- **Oct. 25:** God, Creation and Torah: Rabbinic assumptions about the relationship between the Master of the Universe, humanity, and the Jewish people.
- **Nov. 1:** The Life of Torah: How the rabbis structured time, food, money, and sex to sanctify daily life.
- **Nov. 8:** Reward and Punishment: Rabbinic views on life after death, and the coming of the messiah.

**Gilah Goldsmith**, a graduate of Harvard University and The George Washington University Law School, is a retired government attorney who, for 20 years, has led the weekly Torah study group at Beth El Hebrew Congregation.

F651  Cultures and Religions of East Asia
Mondays, 11:50–1:15, Sept. 19–Nov. 7
Instructor: Johnnie Hicks
The study of world cultures embraces centuries of histories, geographies, traditions, and religious beliefs that constitute a group’s understanding of human life and their place within it. This course takes us on a cultural journey to explore the “Three Wisdoms of East Asia:” Confucianism, Taoism, and Buddhism. Following a study of China, we will journey through the religions and cultures of Japan, Korea, Vietnam, and Cambodia, recognizing similar values but unique traditions related to their own histories, geographies, languages, and spiritual beliefs. Finally, we will learn about the diversity and immigration stories of Asian Americans, and acknowledge their many contributions to the tapestry of American culture.

Johnnie Hicks is an OLLI member who has previously taught courses on the Middle East, Cultures of Afghanistan and Central Asia, and “Feng Shui for Your Home.” She has a lifelong passion for the study of world cultures and has traveled to many countries. Prior to retirement, she worked in Fairfax County Public Schools and for 23 years taught graduate-level courses in Middle Eastern studies, multicultural education, and counseling global populations at Mason.

F652  Spinoza’s Ethics
Tuesdays, 11:50–1:15, Sept. 20–Nov. 8
Instructor: Irmgard Scherer
Baruch Spinoza (1632-1677) was a controversial, tragic, yet philosophically fascinating figure in the history of early modern philosophy. Malignned and ostracized from his Jewish community in Amsterdam for his alleged atheism, he was also described by Novalis as “the most God-intoxicated philosopher who ever lived.” In this course we will examine Spinoza’s five-part Ethics in some detail and from several perspectives, and attempt to make sense of contradictions and ambivalences in his work. Spinoza argued that there is only one Substance, God or Nature, and human beings exist as “modifications” to that substance. They are determined or predetermined. This raises the question of freedom. Of special interest is Spinoza’s theory of emotions which still offers insights for contemporary studies. Finally, we will consider the question: was Spinoza an atheist or not?

Irmgard Scherer, a US citizen born in Germany, is associate professor of philosophy emerita at Loyola University Maryland. She taught core and honors ethics courses, upper level courses in her area of specialty: Kant and 18th century aesthetic theory, and topics in the history and philosophy of science. She has published on Kant and related issues. Since retiring, she has taught philosophy courses for OLLI both at George Mason and American University.

F653  The Dust Bowl
Tuesdays, 2:15–3:40, Sept. 20–Oct. 11
Four sessions
Instructor: Rita E. Way
In 1934 darkness fell across the United States when dust storms hit New York City, Chicago, and Boston. These dust storms were born from a 100 million-acre dead zone two thousand miles away in the Great Plains, also known as the “bread basket” of America. These states were about to face a devastating drought and oncoming crises, a “perfect storm” that was about to destroy one of our most fertile grasslands. It was one of the nation’s worst environmental cataclysms. The course will cover this historical catastrophe through lecture, discussion, and viewing the acclaimed film maker Ken Burns’ documentary, The Dust Bowl. To reiterate Winston Churchill’s speech to the House of Commons in 1948, “Those who fail to learn from history are doomed to repeat it.”

Rita E. Way studied at the Sacred Heart Hospital School of Nursing. She worked as a medical-surgical nurse for 12 years, after which she worked for a long-term care company that owned and managed both skilled nursing and assisted living homes. Nursing and medicine have always been her passion. Way has taught other courses at OLLI such as “The History of Medicine” and enjoys teaching so much, that she put together this course.

Wednesdays, 9:40–11:05, Sept. 21–Nov. 9

Church of the Good Shepherd

Coordinators: Camille Hodges, Johnnie Hicks

The “Created Equal” initiative was launched in 2013 by the National Endowment for the Humanities (NEH) to mark the 150th anniversary of the Emancipation Proclamation. The purpose of the initiative is to encourage members of communities to revisit the history of civil rights in America and to reflect on the ideals of freedom and equality that have helped bridge deep racial and cultural divides. Using video content and materials provided by NEH, this course will examine selected historical civil rights events and compare/contrast them with present and possible future civil and social issues. The format consists of exploratory questions, selected film clips, and guided discussion. Presenters for each session are George Mason University professors and others directly involved with the topics covered in this course. F655 The Mind-Body Problem in Modern and Contemporary Philosophy

Wednesdays, 9:40–11:05, Sept. 21–Nov. 9

Instructor: Emmett Holman

Perhaps the hottest topic in Anglo-American philosophy these days is the mind-body problem. The mind-body problem arises when one starts asking about the nature of the mind; and it is called the mind-body problem because the answers to this question generally fall into one of the two broad categories, depending on how they conceive of the relation between the mind and the body. On one hand, there are physicalist (or materialist) theories of mind, according to which the mind is identical to, or in some way reducible to, the physical brain; and on the other hand, there are dualist theories of mind, according to which the mind, though certainly connected to the brain in some way, is itself something non-physical. In this course, we will look at the pros and cons of these theories, beginning with the 16th century French philosopher Rene Descartes, and then jumping to the work that has been done on this from the mid-20th century on.

Emmett L. Holman earned his BS in physics from Penn State University. He holds a PhD in philosophy from the University of Maryland and taught philosophy at George Mason University for 45 years. While at Mason he taught upper level undergraduate and graduate courses on the mind-body problem and has published articles on that subject.

Mondays, 9:30–11:00, Sept. 19–Nov. 7
Note time
Moderators: Don Allen, Dorsey Chescavage, Mel Axilbund, Caroline Cochran
Class limit: 38
Do you have an opinion about what is happening in the world today? Would you like to express and to share your views with others? Join other news junkies each week to discuss, debate, and yes, sometimes disagree, as to the significance and meaning of events—both great and small. All views are welcomed in a spirit of give-and-take.
Dorsey Chescavage is an OLLI member; she retired from the Jefferson Consulting Group, where she was a registered lobbyist, specializing in military and veterans’ health care. Mel Axilbund, a lawyer, from 1965 through 1980 was engaged in criminal justice reform activities at the US Justice Department and American Bar Association. He spent the next 15 years in a private general practice in Northern Virginia. Finally, he spent 18 years on the trademarks side of the Patent and Trademark Office. R703  All the News That’s Fit to Print
Thursdays, 11:50–1:15, Sept. 22–Nov. 10
Moderator: Dick Kennedy
This is your chance to discuss news and current events with other OLLI members who are trying to understand our changing world. More than ever, we need to question information that comes to us from TV, radio, the Internet, magazines, and newspapers. We will examine and discuss some of the day’s hot topics in world, national, and local news. In order to have time to explore issues and get various insights, we usually focus on a small number of topics. This is an interactive class, and all viewpoints and opinions are respected, needed, and welcomed. As Walter Cronkite once said, “In a democracy agreement is not required, but participation is.” Dick Kennedy, an OLLI member, is a retiree from the senior executive service at the Department of Housing and Urban Development. He enjoys analyzing the news from multiple sources and engaging in good discussions with colleagues.

L704  Korea: North and South
Tuesdays, 11:50–1:15, Sept. 20–Sept. 27
Two sessions
Instructor: Greg Scarlatoiu
● Sept. 20: The North Korean Conundrum. This session will address the history, current state, and future prospects of the North Korean human rights situation. How does the repressive Kim regime maintain the status quo? What are the US and international communities doing to effect change? Scarlatoiu will also address the factors that contribute to the longevity of the Kim regime, as well as the forces that are eroding the Kim family’s grip on power.
● Sept. 27: The Han River Miracle: South Korea’s Past, Present, and Future. The second session will address the economic, social, and political evolution undergone by South Korea since its establishment in
1948. Scarlatoiu will discuss South Korea's astounding economic development, also known as the Han River Miracle. There is a darker side to that miracle; it is the price South Koreans had to pay to achieve economic success. Finally he will also describe the current political outlook of South Korea, as well as political security, trade, and investment issues pertaining to the US-South Korea alliance.

Greg Scarlatoiu has an MA in law and diplomacy from the Fletcher School, Tufts University, and an MA and BA from Seoul National University, Department of International Relations. Currently he is executive director of the Committee for Human Rights in North Korea.

F801 Pulsars: An Adventure to Explore the Wonders of the Star
Two sessions
Instructor: Paul A. Murad
There are many wondrous events in the solar system that warrant further investigation such as pulsars. Pulsars, as well as neutron stars, were unknown until discovered with radio telescopes in the late 1960s. Neutron stars are usually created by a supernova in an implosion that reduces a star larger than our sun to an object about 10-20 kilometers in diameter. With a misaligned axis between their magnetic field and rotational axis, they rotate from 10 to 600 times per second. Does rotation of a spinning neutron star alter gravity? Somehow there is harmony within a binary pulsar about the weights of the bodies, the trajectories, and the spin rate of the neutron star. This view varies from the conventional wisdom, offering a different approach to these challenges. Although some mathematics are involved, these rationales point to a new awakening.

Paul A. Murad has given many courses at OLLI Mason in such areas as gravitation, the race to the moon, a serious view of flying saucers, and ancient nuclear explosions on the Martian surface. As a mechanic, a machinist, engineer, scientist, and former intelligence officer, he was involved with satellites, the Apollo mission, and the Space Shuttle.

F802 Changing Behavior: Tips, Tricks, and Techniques
Mondays, 2:15–3:40, Oct. 31–Nov. 7
Two sessions
Instructor: Colleen Pelar
We are all creatures of habit. To a large extent, this is helpful as it frees our minds to work on other things. However many of our habits don’t serve us well. Intellectually we may believe we should behave differently, but when push comes to shove, we fall back into our familiar routines. Changing behavior can be challenging, but it can be made easier. We will discuss some of the reasons change can be difficult, explore ways to develop new habits, and strengthen our ability to persevere. In the first session, we’ll focus on changing our own behavior and create a plan for the coming week. In the second session, we’ll evaluate our personal progress, talk about stumbling blocks, and make adjustments. Then we’ll turn our focus to the intriguing topic of what we can do to change someone else’s behavior.

Colleen Pelar knows a thing or two about motivation. As a mother, dog trainer, author, and speaker, she is always studying strategies for improving communication and fostering cooperation. Colleen earned her bachelor’s degree at Penn State and is a member of the National Speakers Association. She is a believer in building strong relationships, and that is a primary theme in her three books, two geared toward adults and one for children.

F803 Memory Errors
Tuesdays, 9:40–11:05, Sept. 20–Oct. 11
Four sessions
Instructor: Jim Sanford
This class will examine errors in memory we commonly make. We will begin with a discussion of the development of a cognitive approach to psychology in this country, followed by a discussion of Daniel Schacter’s (1999) The Seven Sins of Memory. The remainder of the class sessions will go into greater detail of some of the specific sins that Schacter identifies. Topics include a research paradigm showing that people are absolutely certain they were presented words when, in reality, only a group of related words was presented. Other issues include the (questioned) existence of recovered memories from early childhood; and the (again, questioned) existence of “flashbulb” memories, such as having a perfect memory to answer the question, “Where were you and what were you doing when President Kennedy was shot?”
Jim Sanford is an OLLI member and a professor emeritus at George Mason University from which he retired in 2014 after 41 years of teaching in the Department of Psychology. His research concentration concerned issues in memory. He earned his PhD from Kansas State University.

F805 United States Forests and Climate Change
Thursdays, 11:50–1:15, Oct. 20–Nov. 10
Four sessions
Coordinator: Fred Kaiser
Climate change is arguably the toughest environmental challenge of the 21st century. One of the biggest contributors to climate change is carbon dioxide. When kept healthy, the 751 million acres of forests in the United States decrease the concentration of carbon dioxide in the atmosphere by absorbing it from the air and converting it into clean oxygen, which they release, and carbon, which they store. The four sessions will cover the following topics:
● Oct. 27: United States Forest Carbon Sequestration. Linda Heath, director forest science and forest policy, US Forest Service
● Nov. 3: The Current Situation of United States Forest Land and Recent Trends. Brad Smith, Associate National Program Manager, Forest Inventory and Analysis.
● Nov. 10: Policies Needed to Address Forest Sustainability with a Changing Climate. Dave Cleaves, US Forest Service climate change adviser (retired)

**R811 What’s Hot and What’s Not? An Update of the Chernobyl and Fukushima Nuclear Reactor Accidents**

Thursdays, 9:40–11:05, Nov. 3–Nov. 10
Two sessions
Instructor: Evan Douple

This year marked the 30th and the 5th anniversaries of the world’s two worst nuclear power plant accidents and the only two given Level 7 classification on the International Nuclear Event Scale. The public has often been confused and misled by information about the current status of the abandoned settlements of Pripyat and Okuma. In two sessions we will review and contrast the two events: what caused them, what took place in the opening days of the crises, the amount of radiation that escaped into the atmosphere, the evacuations of affected populations, the plans for decontamination efforts, and the implications of radiation exposure on human health. The discussion will focus on lessons learned from the two events; the complex and wide-ranging social, political, and environmental issues surrounding them; and how resolution of the issues might affect the future role of nuclear power.
Other Topics

Evan Douple, an OLLI member, is a retired director of the Board on Radiation Effects Research of the National Academy of Sciences, and was associate chief of research at the Radiation Effects Research Foundation in Hiroshima, Japan when the Fukushima event occurred. L813 Navigating Your Ocean of Emotion: Feeling Better from the Inside Out
Mondays, 9:40–11:05, Oct. 17–Nov. 7
Four sessions
Instructor: Debra Dalby
Navigating Your Ocean of Emotion is a wellness program that utilizes neurobiology, psychology, and mindfulness approaches to mood management. Many of us manage moods through some effort to control them, only to have these emotions return—sometimes with greater intensity. The result is a sense of being out of control, feeling overwhelmed as if drowning in a sea of sensations. With a deeper understanding of our emotions, we can achieve a sense of resilience and empowerment that gives us confidence in our ability to manage our lives. Participants will be guided in: (1) Exploring the “why” of emotions and how our bodies are the vehicles for expression of emotions; (2) Understanding the brain science behind emotions; (3) Discovering how mindfulness helps to manage our emotions; (4) Learning useful skills to help ride the “wave” of emotion; and (5) Developing more compassion for yourself and others. More resources included in this workshop!
Debra Dalby, LCSW, RTY200 is a therapist in Leesburg, VA, with over 20 years of experience in the field of mental health. Her post-graduate studies include emotionally focused therapy, and post-traumatic stress disorder training.

Is 3D printing just another passing technological fad or could it be a window into an exciting new future of technology that will change the way we live? We’ll explore the humble origins of 3D printing, its initial applications in prototyping and manufacturing, how the technology has evolved, and how it has recently expanded into a broad range of applications, the diversity of which will surely amaze us all.
John Acton, OLLI member and chair of the Science, Technology, and Health Program Planning Group, has a BS in electrical engineering and an MS in engineering management of technology. He spent 20 years in the US Air Force, applying advanced sensor technologies to critical national security missions, and afterwards, 24 years as a contractor supporting a variety of defense and intelligence agencies.

F901 Adventure Beckons!
The Path to Your New Mental, Spiritual, and Fitness Future
Mondays, 11:50–1:15, Sept. 26–Oct. 3
Two sessions
Instructors: Anne Drissel, Dave Lloyd
This seminar is intended to inform attendees of the opportunities and possibilities of living a full spiritual, mental, and fit life from mid-60s onward. Unlike most personal growth and career development seminars that focus on 16 to 60-year-olds, this two-session seminar and the associated workshop focus on those starting their fourth quarter of life who intend to live “the good life” to 100+ years.
The seminar addresses four fundamental ways to successfully negotiate this life phase: (a) fitness issues, (b) spiritual life issues, (c) intellectual life development, and (d) tips and practical practices to put these three pillars into place for success. (Note: Attendees should consider taking the associated workshop F902, “Finding Our Way: A Workshop on Self Re-Discovery.”)
Anne Drissel graduated from University of Maryland with a BS in family and community development. She retired in 2014 as a business architect in the Office of Biometric Identity Management, US Department of Homeland Security. She is a certified leadership coach (Georgetown University) and was vice president for Behavioral Health Services for a Texas regional healthcare system.
Dave Lloyd received his undergraduate degree in mathematics from Indiana University, an MS degree in computer systems from American University and Diploma Certificate from the University of Berlin. His career has been in a series of technical areas working both for the federal government and in private industry. His hobbies include mountain climbing and furniture building.

F902 Finding Our Way: A Workshop on Self Re-Discovery
Mondays, 11:50–1:15, Oct. 10–Oct. 31
Four sessions
Instructor: Anne Drissel
As our lives evolve, we must adapt to change. The self that we were as careerists, achievers, parents, activists, or volunteers gives way in our later years to new opportunities. We are no longer driven by new titles, bonuses, winning soccer tournaments, or beating rush hour traffic. This workshop is about discovery. We will take time and thought to notice opportunities missed or not yet explored, and consider what once held us back. What would it take to pursue them now? Yes, there will be homework! We will notice, reflect, write, compose, create, and interpret. We will share some of our stories with fellow workshop members. Together we will help each other find that unique “Way” that awakens the Self we once knew. (Note: For a broader perspective on life after retirement, attendees should consider taking the associated course F901, “Adventure Beckons! The Path to Your New Mental, Spiritual, and Fitness Future.”)
See F901 for instructor information.

His primary reason for sharing is to shed light on what can happen when a person has dementia.

George Ewing has a degree in group work education from George Williams College. He received a master’s degree from the University of Maryland in 1973.

959 Status of Fear in the United States
Friday, 1:00–2:30, Sept. 16
Tallwood
Instructor: Peter N. Stearns
These days, fear is a pretty obvious emotional topic in the United States. This talk will focus on fear as a social and historical phenomenon, arguing that, while it is a basic emotion, it does vary depending not only on provocation but also on the prevailing culture. Taking a look at the measurable rise of fear in American society by the early 1980s involves assessing a major change that, in turn, helped produce the framework in which Americans have reacted to more recent stimuli. Have we become more afraid, and more diffusely afraid, than we need to be? If so, why, and what can we do about it?

Peter N. Stearns is University Professor at George Mason University. He has written or edited 120 books and published widely in modern social history, including Doing Emotions History. Forthcoming works include: The Industrial Turn in World History. He is currently completing A History of Shame for the University of Illinois Press.

961 The 2030 Roadmap: Greater Washington’s Economic Future
Wednesday, 2:15–3:40, Sept. 21
Fairfax Lord of Life Lutheran Church
Coordinator: Leo Brennan
The Washington region’s economy has undergone a major structural change since 2010. Coming on the heels of the Great Recession of the 2000s and just as the regional economy was moving into recovery mode, the region’s principal economic driver, federal spending, was curtailed. These cutbacks highlighted the fact that the region needed to diversify its economy in a way that reduced its historic dependence on federal spending and set itself up to compete globally. Recognizing this, members of the 2030 Group have long worked to advance the Greater Washington regional economy and advocate for a regional approach to long term decision making. Regional leaders across a variety of sectors—business, government contracting, philanthropic, health, tech, and academic—commissioned Dr. Stephen Fuller of Mason’s Center for Regional Analysis to create a roadmap for the region—one that identified the competitive strengths and weaknesses of our region, as well as non-federally dependent clusters that could spur economic growth and development throughout the region.

Bob Buchanan, a partner at Buchanan Partners, LLC and president of the 2030 Group, will provide an update on The Roadmap for Greater Washington’s Economic Future and the ongoing regional initiatives that have stemmed from its findings.

962 Caregiving Wisdom from an Ancient Sage
Wednesday, 2:15–3:40, Sept. 21
Rose Gallery, Reston Community Center, Lake Anne
Instructor: Veronica Li
This is a lecture on the Chinese philosophy of elder care and its relevance to today’s world. Confucius’ teachings on filial piety, the foundation of Chinese culture, contain nuggets of universal wisdom. Speaker Veronica Li will talk about her experience caring for her aging parents. As a Chinese daughter, she had been raised in the belief that she had to love and care for her parents above all else. After they passed away, she was haunted by questions. Had she done enough for them? And what was enough? Li wrote about her experience in a novel called Confucius Says. To put the story in cultural context, she read Confucius’ ideas of filial piety. To her surprise, Confucius says the first rule of filial piety is to take care of oneself. He also lays out the basic principles of caregiving. The ultimate goal of filial piety, he says, is to bring out the goodness in us.

Veronica Li, a resident of Vienna, VA, was a journalist and later an officer of the World Bank. She’s the author of Confucius Says, a novel on caring for aging parents, and two other books. There will be a book-signing afterwards.

965  Gilbert and Sullivan, Part 3
Wednesday, 2:15–3:40, Sept. 28
Rose Gallery at Reston Community Center, Lake Anne
Instructor: James Keefe
The Mikado was the culmination of Gilbert and Sullivan’s work, and had the most improbable of origins. Stuck for an idea for a new project, Gilbert was pacing around his home when a Japanese ceremonial sword fell off a wall. Inspired by the incident, he set to work and brought the story to Sullivan. The result is a comedy of errors involving mismatched couples, an angry emperor, Japanese legal arcana, and a resolution of Shakespearean symmetry. All of this is sparked by classic songs. Kenny Baker, of Jack Benny radio-show fame, stars in this 1938 Hollywood Technicolor film, along with the principals and chorus of the D’Oyly Carte Opera Company. James W. Keefe, PhD, is a former choral music teacher, high school principal, university professor of education, and a national educational association director of research. He received an EdD in educational curriculum and research from the University of Southern California and retired from the National Association of Secondary Principals in 1995.

The program will feature Music in the Life of President Lincoln, a film produced by the Virginia Chamber Orchestra. This 40-minute documentary film explores a little-known side of Lincoln. 969 Alexander Gardner: An Examination of his Photographic Legacy
Friday, 1:00–2:30, Oct. 7
Tallwood
Instructor: Barbara Nelson
When Alexander Gardner emigrated to the United States in 1856, he had already apprenticed and worked as a jeweler, sold life insurance, had become owner and editor of the Glasgow Sentinel, and eventually worked as a photographer after seeing Matthew Brady's work in the 1851 Great Exhibition in Hyde Park. In 1856 he started working for Brady in New York, specializing in large Imperial photographs. He opened Brady’s Washington, DC, studio in 1858. Gardner eventually debuted his own DC studio in 1862. He took more images of Abraham Lincoln than any other photographer, including the famous cracked-plate image taken in February 1865. He also took his photographic equipment to Civil War battlefields. Gardner was the only photographer invited to chronicle the executions of the assassins of President Lincoln on July 7, 1865. After the war, he went west to survey the proposed route of the Kansas Pacific Railroad, photographing the Native Americans and the remarkable landscape there. In 2015-2016, the National Portrait Gallery had an exhibit entitled Dark Fields, showing Alexander Gardner’s work, and this presentation includes many of those remarkable images. Barbara Nelson, an OLLI member, taught for over 30 years at the secondary level, the last 20 at Thomas Jefferson High School for Science and Technology. She has taught a number of literature classes at OLLI. This presentation is based on her experience as a docent at the National Portrait Gallery.

970 Rise and Fall of Senator Joe McCarthy
Monday, 11:50–1:15, Oct. 10
Loudoun
Instructor: David Heymsfeld
In February 1950, Joe McCarthy, a little known senator from Wisconsin who had shown no prior interest in anti-communism, claimed to have a list of 205 employees of the State Department “known to the Secretary of State as being members of the Communist Party.” Although Senator McCarthy was never able to prove these charges, they made him a national figure. Over the next four years he maintained his prominence with a series of unsubstantiated charges, including calling the Roosevelt and Truman administrations “twenty years of treason,” accusing General George Marshall of being part of a “conspiracy so immense and an infamy so black as to dwarf any such previous venture in the history of man,” and claiming widespread communist infiltration of a number of government agencies. McCarthy’s downfall in 1954, after his condemnation by a Senate resolution, was as sudden and rapid as his rise. This presentation will examine these events in their historical context of fear and look at McCarthy’s “enablers.” We will also see videos of critical events in his downfall, including Edward R. Murrow’s documentary and Joseph Welch’s denunciation at the Army-McCarthy hearings. David Heymsfeld, an OLLI member, served on congressional professional staff for 35 years. He has taught several OLLI courses on history and is a volunteer guide for the Newseum.

976  **The Difficulty of Being Good**  
Friday, 1:00–2:30, Oct. 28  
Tallwood  
Instructor: [Kamlesh Jain](#)  
Most of us spend our lives wrestling with day-to-day questions of right and wrong, and these either have no easy answers or remain unanswered. This presentation uses the lens of “Dharma” as practiced by some of the characters in the great Indian epic **Mahabharata** to evaluate and suggest solutions to present-day moral dilemmas. It is based on the book, *The Difficulty of Being Good: On the Subtle Art of Dharma* (2010) by Gurcharan Das. Dharma can mean virtue, duty, or law, but is mainly about doing the right thing. The **Mahabharata** is the longest epic poem known, with 100,000 couplets and lengthy prose passages. Its world of moral haziness and uncertainty is close to our own experiences as human beings and provides insights into ways of resolving modern-day moral dilemmas.  
**Kamlesh Jain** has over three decades of professional experience, including positions with the federal government, universities in the US and abroad, major corporations and a non-profit organization. She has a PhD in business and management from the University of Maryland, an MS from the University of California, Los Angeles, and a BS and MS from the Indian Statistical Institute.

**984 The 2016 Presidential Election: Forces and Consequences**  
Wednesday, 2:15–3:40, Nov. 16  
Fairfax Lord of Life  
Instructor: Helen R. Desfosses  

This lecture will examine the factors and forces that played into this extraordinary and absolutely unique presidential election. The role of many traditional factors, such as political parties, political experience, and policy discussions was diminished and even made suspect, while the impact of powerful personalities, unlimited campaign funds, political polarization, often unfiltered media attention, and angry nativism and populism, soared. Add to this mix growing economic inequality, and the decline of well-paying sectors like mining and manufacturing, as well as the significant disapproval ratings for many of the top candidates, and you have a tableau of how complex a presidential election this was. The consequences of this tableau, and frequently raucous complexity, will weigh on American politics for decades to come.  

Helen R. Desfosses, PhD, is a retired professor of public administration and policy, a former elected official, and a consultant around the world on effective and transparent elections. She has taught several OLLI courses.

1004BT Bake Sale, Lunch, and a Movie: *Joyeux Noël* ("Merry Christmas")

Tuesday, 11:30–3:00, Dec. 13
(Bake Sale 11:30–12:30, movie at 12:30)
Tallwood
Coordinator: Martha Powers; Historian: Bernie Oppel
Bring your lunch, buy some homemade goodies, and join us at noon for a half-hour of noshing and socializing, followed by a heart-warming seasonal film: *Joyeux Noël*. It's 1914, and, as World War I rages across the European countryside, an amazing event occurs. This is the Academy Award-nominated French film (with English subtitles) about the unofficial wartime Christmas Eve truce that would offer hope for peace in mankind's darkest hour. German, British, and French troops reached out to their enemies on the battlefield, greeted them with the simple gesture of a piece of chocolate or a cigarette, and put their differences aside long enough to wish their brothers a sincere “Merry Christmas!” After the movie, you’ll have a chance to explore this story’s veracity with our own expert on the subject, OLLI member and historian Bernie Oppel.

Closing Policy
OLLI does not hold classes or events (and the Tallwood office is closed) when county schools are closed due to inclement weather or area-wide emergencies. When schools announce a delayed opening, OLLI will generally open on time. OLLI follows the Fairfax County Public Schools for classes in Fairfax (Tallwood) and Reston. It follows the Loudoun County Public Schools for classes in Loudoun.
Note: Because OLLI uses the Mason building in Loudoun, it is required to abide by any decision by Mason to delay or close. In rare instances when Mason announces a delayed opening, we may need to cancel the first class of the day in Loudoun only. To avoid confusion, OLLI will send an email to members in the affected classes by 8:30 a.m. Tune in to your TV or radio for closing announcements when the weather is bad or emergencies exist. You can also check the “What’s New” page on the OLLI website (www.olligmu.edu) or the Tallwood answering machine (703-503-3384) to confirm closing information.
Regardless of decisions regarding closings or delays, it is important for OLLI members to use personal judgment regarding travel to and from OLLI during inclement weather. Remember, there are no grades or exams in OLLI classes!
To celebrate our 25th year of lifelong learning, we will highlight courses and presentations focusing on “Living Well, Aging Well.” Watch for the anniversary logo in the catalog next to these classes.

JOINING OR RENEWING
OLLI MEMBERSHIP

Welcome to OLLI, one of the best lifelong learning institutes in the United States! If you are a returning member, you already understand the great value of your membership at OLLI-Mason. Thanks for being a valued OLLI member!

Two OLLI Membership Types

1) **Full membership.** Register for unlimited courses and activities held at all OLLI locations for four terms (fall 2016, winter 2017, spring 2017 and summer 2017). You will be eligible for a Mason ID card to receive certain university privileges and discounts (outlined on p. ii). The cost for full membership is $375.

2) **Introductory membership.** Register for unlimited courses and activities at all three locations for just one term, fall 2016. An introductory membership is not available to former OLLI members; it is intended for new members who want to sample OLLI before committing to a full year. Introductory members are not eligible for a George Mason ID card and its privileges. The cost for introductory membership is $150.

If the renewal date on the catalog mailing label is 9/1/16 or earlier, it is time to renew. If the date is 1/1/17 or later, you are a current member and do not need to pay your dues now. Current members can visit their profile page in the Member Portal to see when their membership expires.

Payment Options

1) **Online.** You may join or renew OLLI membership online at [olli.gmu.edu](http://olli.gmu.edu). Click “Join OLLI Today” or “Register/Member Portal” link under “Quick Links” on the right side of the home page. Credit card payment is required when joining/renewing online.

2) **Hardcopy Registration Form.** You may also register for classes via a registration form (found on p. 49). The form can be mailed to the OLLI main office at 4210 Roberts Road, Fairfax, VA 22032.

3) **Installment.** OLLI encourages members to pay in full at time of registration. However, for those unable to pay in full upon registering, OLLI offers a payment plan of 12 equal monthly installments by credit or debit card. Your application for the installment plan must be filled out completely, submitted to the main office, and approved each year before you can register for courses or activities. Applications are available on DocStore via the OLLI website olli.gmu.edu or by contacting the OLLI office at olli@gmu.edu.

4) **Financial Assistance.** OLLI offers financial assistance for members or potential members who find it a hardship to pay the full membership fee. Contact the registrar at olli@gmu.edu or visit Tallwood for an application. All inquiries are kept confidential.

Refunds

Members may obtain a full refund of their dues only by applying in writing to the executive director before the beginning of the third week of classes in the first term of the year of enrollment or re-enrollment.

Prospective Members

Not ready to commit? Prospective members may experience OLLI by visiting up to two class sessions or activities that are not oversubscribed. Check with the OLLI registrar about available seating.

REGISTRATION PROCESS

**Important Registration Dates**

Fall registration begins Tuesday, August 16 and ends on Thursday, August 25 at noon.

2) **Hardcopy Registration Form.** You may also register for classes via a registration form (found on p. 49). The form can be mailed to the OLLI main office at 4210 Roberts Road, Fairfax, VA 22032.

**No drop off registrations. Registrations can be submitted by mail or online ONLY. Faxed registrations will not be accepted.**

When to Register

“Request Class” Registration Period
- Members are encouraged to register for fall 2016 courses and events during the “request class” registration period, August 16 to August 25 at noon. Requesting classes during this period offers registrants the best chance to gain access to the most popular classes.
- When you register, you must click “request class” to add it to your selections.
- To complete your registration, you must list the courses and events you want in “priority order”—the order of their importance to you. To prioritize classes or to see what you have requested, click the “Prioritize/Finalize” option found on the left side toolbar of the member portal. Courses and events are prioritized separately.
- Members are placed in courses and events based on the priority number they assign to their requests.
- If class enrollment reaches capacity (a number limited by the instructor or room size), those who have designated that course as priority one will get in first, then the priority twos and so on.
- In addition, a random number is assigned by our registration system to each class request. At the point that all members of a priority group cannot be included in the course, those with the lower random numbers will be admitted into the course first.

Open Registration Period
- Open registration begins after the “request class” period ends on August 25. You may still register for classes and special events anytime, but you will be placed into classes on a space-available basis after all registrants in the “request class” period have been assigned.

“Request Class” vs “Add to Cart”
- “Request Class” is the button you click when you are registering for a class or event during the registration window and before classes have been assigned. These require a priority assignment.
- “Add to Cart” is the button you click when you are registering for classes or events in which you are immediately enrolled or which are designated in the catalog as first-come, first-served. This includes all clubs and ongoing activities. Please remember to go to “View Cart” and “Check Out” to complete enrollment before logging off the member portal. These do not require a priority assignment.

Making Changes to Your Registration
- You may add classes at any time either online or via an add/drop form (available in the Tallwood office and, during the term, at the Reston and Loudoun locations). You may drop courses ONLY by emailing olliareg@gmu.edu or by turning in an add/drop form to the front office.
- If you are unable to attend a course or event in which you are enrolled, please drop the course or event as soon as possible.
- A list of courses and events with open seats will be posted at all sites and on the OLLI website.

Confirmation and Class Payments
- The registration system will assign classes on or after August 31. You will receive a series of emails, thereafter, with your confirmed class enrollments, your waitlisted courses, and classes for which you are eligible, but need payment to finalize enrollment. If you do not have an email on file, the confirmations will be mailed to you.
- Read your confirmation emails and letters carefully. They will include any updates to classes, including changes in times or locations.
- If you are notified you are eligible for courses or events with a fee, you must pay by check or credit card at least one week before term begins to complete enrollment. If not, your seat will be offered to a member on the waiting list. If you will be out of town and unable to pay during that time, submit to the Tallwood office, beforehand, a separate check for each course or event with a fee, so we can process payment in your absence. Checks for courses or events for which you are waitlisted will be shredded.
- OLLI cannot guarantee a refund for courses or events once you have paid and are enrolled. Consider carefully before signing up for courses with fees.

Wait Lists
- OLLI does all it can to maximize enrollment into classes, including changing venues, and adjusting class capacities. If you do not make it into a class, you will be waitlisted based on the priority you assigned to the class.
