**David LaMond Gunn**

Dr. David LaMond Gunn is a circuit riding abortionist. Gunn kills unborn babies in their mothers womb for a fee. Under Florida Statute 390 Gunn is legally allowed to ply his deadly trade in this state. # Phyllis Schlafly

“The American family used to be the fundamental institution of our stable, liberty-loving, and very successful society. It enabled us to build a prosperous middle class that was the envy of the world. The structure was based on defined gender roles: a breadwinner and protector husband and father who earned enough to support his family; a full-time homemaker whose principal duty was the care and upbringing of their own children...Today that world seems to be gone or fast disappearing.”

# Senator George Vest, 1887

“For my part I want when I go to my home .... not to be received in the masculine embrace of some female ward politician, but to the earnest loving look and touch of a true woman.... I want to go back to the jurisdiction of the wife, the mother; and instead of a lecture upon finance or the tariff, or upon the construction of the constitution, I want those blessed, loving details of domestic life and domestic love.”
