

RootsMagic Reports

Reports and Charts

RootsMagic offers numerous reports, charts and lists that you can print or save to file. Choose **"File, Print a report"** or **"Reports, Print a report"** from the main menu, or click the **Printer** button on the toolbar, or press **Ctrl+P**.

The screenshot shows the 'Create a Report' dialog box. At the top, there is a printer icon and the text 'Create a Report'. Below this, there are two radio buttons: 'Icons' (selected) and 'List'. To the right of these is a search box labeled 'Search for Report'. A list on the left side contains the following categories: 'All Reports' (highlighted), 'Charts', 'Forms', 'Labels', 'Lists', 'Narratives', 'Reports', and 'Wall Charts'. The main area displays six report icons with their names: 'Correspondence List', 'Custom Report', 'Descendant List', 'Duplicate List', 'Fact List', and 'Family Group Sheet'. The 'Family Group Sheet' icon is highlighted with a blue border. At the bottom, there is a preview of the 'Family Group Sheet' report, a description: 'A table showing the facts and events for a single family.', and a 'Create Report' button.
