All About OLLI

Who We Are

The Osher Lifelong Learning Institute (OLLI) at George Mason University offers daytime courses, lectures, special events, and other activities during eight-week terms in the spring and fall, a four-week winter term, and a six-week summer program. There are no exams, no credits, no college degree required or offered, and no age threshold. Course leaders are qualified members of OLLI, Mason faculty, or others who enjoy sharing their knowledge. OLLI is particularly proud of its volunteer teachers and speakers, many of whom are well-known experts in their fields. The views expressed are those of the instructors and do not reflect the official policy or position of OLLI or George Mason University.

Members pay annual dues and may attend as many activities as they wish, subject to space availability. There may be charges for materials and for some special events.

OLLI publishes an email newsletter (OLLI E-News), a catalog each term, an online membership directory, and the Member Handbook. An annual literary journal, OLLI Ink, and, from time to time, the Poets of OLLI collection are also published.

OLLI Mason is one of many Osher Lifelong Learning Institutes affiliated with The Bernard Osher Foundation and is also a member of the Road Scholar Institute Network. OLLI is a nonprofit, equal-opportunity 501(c)(3) organization and does not discriminate on the basis of race, color, or national/ethnic origin.

Where We Are

Most activities are held at Tallwood, 4210 Roberts Road in Fairfax, at the United Christian Parish near Lake Anne in Reston, or at the Mason site in Loudoun. OLLI’s main office is at Tallwood, with satellite offices (open only during class hours) in Reston and the Mason site in Loudoun. All sites are accessible to persons with disabilities and have free parking available. To park at the Mason site in Loudoun you must obtain a free parking permit from Mason in Loudoun, Suite 130. A map and addresses for all locations are printed on the inside back cover.

How to Join

Any person may obtain an annual membership by registering online or by completing the form and submitting it to OLLI with the required check(s) or credit card information.

Give the Gift of OLLI

What better way to show appreciation for your spouse, sibling, or good friend than by giving an OLLI eGift card? The card can be purchased in any amount to apply toward an OLLI membership or event/materials fees. It makes the perfect retirement, birthday, or holiday gift. The gift of OLLI is great: captivating classes, fabulous field trips, and sensational socials to indulge both mind and soul!

Purchase the eGift card on the OLLI member portal (ollimu.augussoft.net) or by calling the OLLI office (703-503-3384).

George Mason University Privileges

Full OLLI members are entitled to a George Mason University ID card, which provides library privileges, discounted Mason gym membership, and other benefits. A free Mason email account with access to the Mason intranet is also available. To apply for an ID card, fill out an application, available at any OLLI site or on the OLLI website DocStore (under MainMenu/Documents), and return it to the main office at Tallwood or to the site assistant at Reston or Loudoun.

OLLI Closing Policy

OLLI is closed when county schools are closed. OLLI follows the Fairfax County Public Schools for Fairfax and Reston sites and the Loudoun County Public Schools for Loudoun sites.

When schools announce a delayed opening, OLLI generally opens on time. Exception: at George Mason facilities we adhere to Mason closing decisions. If Mason announces a delay, OLLI may need to cancel the first class of the day. Also, poor conditions at OLLI sites may necessitate class or event cancellations.

The most up-to-date information on OLLI delays and closings can be found on the OLLI website: olli.gmu.edu.

Important Priority Registration Dates

F101 Understanding Opera, Part 2  
Mondays, 2:15–3:40, Jan. 28–Feb. 18  
Instructor: Glenn Winters  
This course completes a survey of Virginia Opera’s 2018-2019 season. Works studied will include Donizetti’s classic comedy The Elixir of Love and Puccini’s immortal tragedy Madama Butterfly. Winters’ lively discussions feature video and audio excerpts, and this course is recommended for opera beginners and aficionados alike. Part 1 is not a prerequisite.  
Glenn Winters is in his 15th season as community outreach musical director for Virginia Opera. As an operatic baritone, Dr. Winters has appeared as guest artist with the Operafestival di Roma, Virginia Opera, and others. He is the composer of 12 operas for children and adults. This season Virginia Opera will tour his newest opera, The Aframerican: Roland Hayes’s Journey. His operas have also been staged by the Cimarron Opera Company and Piedmont Opera. Winters is the author of The Opera Zoo: Singers, Composers and Other Primates.

F102 GRC Photography  
Tuesdays, 9:40–11:05, Jan. 22–Feb. 12  
Instructor: Dan Feighery  
Class limit: 12  
This course is designed for those who attended the 2018 summer “GRC Photography” course. Through weekly assignments we will strive to capture the best possible photo while concentrating on content, arrangement, and exposure of whatever is in the picture space, before the application of any post-processing. Instruction will focus primarily on use of digital single-lens reflex (DSLR) cameras. Attendees will be encouraged to use the manual rather than an automatic camera mode. Both technical and artistic intermediate level instruction will be adjusted to the needs of attendees. Class participants will capture at least 20 images each week, selecting their best four photos each week for individualized instructor comment followed by interactive classroom review. The assignment for discussion during the first class will be sent in advance to attendees.  
Dan Feighery holds a BS in physics from Saint Joseph’s University in Philadelphia and a master’s in public administration from Golden Gate University in San Francisco. He has attended photography courses at Northern Virginia Community College and George Mason University. He founded the OLLI Photography Club and has taught OLLI photography classes.

F103 In Lorton’s Darkroom  
Tuesdays, 11:50–1:15, Jan. 22–Jan. 29  
Two sessions  
Instructor: Karen Ruckman  
This class will view In Lorton’s Darkroom, a documentary film highlighting the Lorton Photography Workshop, a program at Lorton Prison during 1980s. Attendees will meet photographer Karen Ruckman and producer Emma Pearce. They will discuss how and why documentary films are made and why they are important. Founded by Ruckman and supported by the DC Commission on the Arts and Humanities, the workshops helped prison administrators more fully appreciate the value of the arts in prison, and helped the inmates overcome distrust, coming together as a community.  
Karen Ruckman is a documentary photographer who has captured images of politicians, celebrities, and decision-makers for a variety of clients from Congressional Quarterly to Hello magazine. Her independent projects have taken her from a nature preserve on Assateague Island off the coast of Virginia to Northern Ireland where she documented the transition from The Troubles. Her work teaching photography workshops with marginalized populations led her to a long-term observational film about two Washington DC men adjusting to life after prison in The Missing Men.

F104 Women in Focus: Four American Photographers  
Instructors: Angie Talaber, Dave Talaber  
Please join OLLI in celebrating the lives and artistry of Dorothea Lange, Annie Leibovitz, Sally Mann, and Vivian Maier. We will view four documentary films.  
● Jan. 22: Dorothea Lange: Grab a Hunk of Lightning. In this film, we see more than 50 years of 20th-century America as viewed by Dorothea Lange. Lange is best known for her powerful images from the Great Depression, especially Migrant Mother (1936).  
● Jan. 29: Annie Leibovitz: Life Through a Lens. Directed by her sister Barbara Leibovitz, this film depicts the key phases of the artist’s life and work, including her childhood, the 1960s, her work for Rolling Stone and Vanity Fair, as well as her significant
personal relationships. The film includes interviews with her most famous subjects, mentors, and colleagues commenting on her evolution as an influential visual artist.

- **Feb. 5: What Remains: The Life and Work of Sally Mann.** Sally Mann’s work challenges viewers’ values and moral attitudes. Her first important work, *Immediate Family* (1992), is a series of complex and enigmatic pictures of her three children. *What Remains* documents the photography and life of Sally Mann at her Virginia farm home.

- **Feb. 12: Finding Vivian Maier: Who was Vivian Maier?** Now considered one of the 20th century’s greatest street photographers, Vivian Maier began as a nanny who secretly took over 100,000 photographs that were not seen during her lifetime. Since buying her work by chance at auction, amateur historian John Maloof has sought to focus attention on this prolific photographer. Maier’s life and art are revealed through never-before-seen photographs, films, and the people who thought they knew her.

**Angie and Dave Talaber** are co-coordinators of the OLLI Photography Club and enthusiastic amateur photographers. Their interests are as diverse as 19th-century alternative photographic processes, classic 20th-century photojournalism, traditional silver gelatin film processing, printing, and camera collecting. Their favorite photo subject is the city they both love—Paris.

**F105 Drawing and Sketching Workshop**

**Tuesdays, 2:15–3:40, Jan. 22–Feb. 12**

*Fairfax Lord of Life, Conference Room*

*Instructor: Bill Parsons*

*Class limit: 14*

This class is intended for students who are experienced in drawing and wish to continue their work in a supportive setting among others who share their desire to improve their art. Our focus will be on striving to truly see the world around us by drawing, while exploring the visual effects and relationships of light, value, color, form, dimension, and perspective. We’ll encourage free expression and will use many different materials to create work that reflects the personal interest of each student. Projects will be started in class but sometimes completed outside of class. Weekly class discussions of finished work will help students grow their talents. Supplies needed are subject to the interests of each student but might include pencils, charcoal, conté crayons, ink pens, pastels, colored pencils, and papers or other surfaces appropriate to the medium.

*Bill Parsons* earned an MFA from Virginia Commonwealth University in 1978 and has worked as a furniture maker and designer, jeweler, silversmith, and ceramic artist.

**F106 Introduction to Watercoloring Art**

**Wednesdays, 11:50–1:15, Jan. 23–Feb. 13**

*Fairfax Lord of Life, Conference Room*

**Instructors: Suzanne Goldstein, Susann Hamilton**

*Class limit: 12*

This class is for beginners only, who want to learn basic skills in watercolor art. We will discuss appropriate brushes, paints, and papers for watercolor painting. Artwork often will be finished outside of class. Participants will need tubes of watercolor paints in blue, yellow, red, payne’s grey, and brown, or a student set of watercolors; watercolor brushes in #4 detail brush, #8 round brush, and 1/2-inch (13 mm) flat brush; and 140 lb. cold press watercolor paper, either in a pad or a large single sheet of Arches paper. (We realize that there are cheaper brands of paper. While they are usable, they do not absorb the paint or the water as well.) You will also need a container for water and a paper plate or palette to mix colors. These supplies can be purchased at any AC Moore, Michaels, or Plaza Artist Materials at Pan Am Shopping Center in Fairfax. Please do not register for F108 Watercolor Painting if you sign up for this class.

*Suzanne Goldstein* is a retired math teacher and a longtime attendee of OLLI sketching and watercolor classes, as well as a facilitator of the Annex Art Club.

*Susann Hamilton* is a retired association executive who has been an OLLI instructor of Beginning Sketching and facilitator of Dabbling Artists.

**F107 Dabbling Artists**

**Wednesdays, 2:15–3:40, Jan. 23–Feb. 13**

*Fairfax Lord of Life*

*Instructors: Suzanne Goldstein, Susann Hamilton*

*Class limit: 12*

Come meet and join OLLI members who dabble in sketching and watercolor painting. You provide your own materials and the picture or sketch you plan to work on each week. There will be plenty of guidance and encouragement available, along with suggestions for projects you might enjoy. This class is not intended for beginners. “Introduction to Sketching and Watercolor Art,” or equivalent experience, is recommended.

See F106 for instructor information.
F108 Watercolor Painting
Instructor: Leonard Justinian
Class limit: 15
This class will provide an opportunity for watercolor painters at all levels to develop fresh skills while learning new watercolor techniques. Required materials include: #1, #6, and/or #8 round watercolor brushes; a paint palette for mixing colors; 140 lb. cold press watercolor paper (Arches is best, but you can use less expensive paper); a kneaded eraser; a Staedtler white plastic eraser; and tubes of watercolor paint in white, charcoal black, cadmium yellow (medium), cadmium red (medium), and ultramarine blue, or a starter set of watercolors.
Leonard Justinian has been painting for more than 60 years. Among other honors, he has received the Grumbacher Award. L110 Original Engravings from Audubon's Masterpiece, The Birds of America
Wednesdays, 11:50–1:15, Jan. 23–Jan. 30
Two sessions
Instructor: Jeff Metzger
John James Audubon, often described as the greatest American artist of nature, completed The Birds of America in the late 1830s. This four-volume set of engravings depicts many of the bird species in the United States, life-size and in their habitats. Audubon's work paralleled other efforts encouraged by Thomas Jefferson and others in the early 19th century, including the Lewis and Clark expedition, to observe and describe the "new America." Jeff Metzger has collected a number of Audubon's original full-size engravings over the past 20 years. For this course, he will bring about ten of Audubon's pieces from his collection for attendees to examine. He will discuss Audubon's extraordinary life and the process by which the engravings were made. Finally, he will briefly review the history of each engraving. This course will provide a rare opportunity to view these almost 200-year-old artistic pieces in a non-museum venue.
Jeff Metzger graduated from Amherst College and Georgetown Law School. He worked for the Department of Justice, in private practice, and most recently as associate general counsel for a Fortune 500 company. Metzger has particular interests in history, politics, and anything composed by Johann Sebastian Bach. He is an avid collector of the original artworks of John James Audubon.

Today there are more than 300 different recorded versions of the song. A French-Canadian Jewish poet, Cohen was also a Buddhist monk, yet he wrote many songs about

F301 Intelligence in the Civil War, Part 2  
Mondays, 11:50–1:15, Jan. 28–Feb 18  
Instructor: Jim Anderson  
Against the backdrop of the Civil War, we continue our examination of the efforts of the two warring governments to establish effective intelligence organizations. In Part 1, we discussed the use of tradecraft techniques, such as code-breaking, deception, and covert surveillance. We also saw how both sides experimented with technologies, such as the telegraph and reconnaissance balloons. In Part 2, the first lecture will discuss the history and impact of Mosby’s Rangers on the local area. The following three lectures will examine the intelligence contributions on both sides during the Antietam, Chancellorsville, and Gettysburg campaigns. As with the first lecture series, the focus will be less on the battlefield, and more on the battle of wits.  
Jim Anderson spent 27 years with the CIA, including six overseas tours in Europe, Africa, the Middle East, and the Far East. He holds a BA in history from Rhodes College and an MA in history from the University of Memphis. After retirement, he spent 11 years conducting corporate leadership training seminars featuring Civil War battlefield visits. He has spoken frequently at OLLI on Civil War, frontier, and Native American topics.

F302 Native American Veterans in the Wars  
Tuesdays, 11:50–1:15, Jan. 22–Jan. 29  
Two sessions  
Fairfax Lord of Life  
Instructor: Michael Nephew  
The French and Indian War was a misnomer. In fact, Native Americans fought on both sides of the war. Native Americans have fought in almost all of the wars of the colonies and the United States. This is a brief history of Native Americans in the military from the French and Indian War to present-day conflicts.  
Michael Nephew is a citizen of the Eastern Band of Cherokee Indians and comes from a long line of Native American veterans. He is also a past president of the American Indian Society of Washington DC and of the American Indian Inter-Tribal Organization.

F303 The Racial Integration of the United States Air Force  
Tuesdays, 11:50–1:15, Feb. 5–Feb. 12  
Two sessions  
Fairfax Lord of Life  
Instructor: Alan Gropman  
Dr. Gropman will conduct a discussion on the racial integration of the United States Air Force, based on research for his book *The Air Force Integrates: 1945–1964*. He will discuss the extremely racist setting in the 1920s, 1930s, and 1940s, the role of the Tuskegee Airmen in changing the attitude of Air Force leadership, and the basis for the Freeman Field Mutiny. He will also address the problems dealing with bigoted archivists preventing the use of illegally classified material, the role played by domestic politics in the integration saga, and the true hero of military racial integration.  
Alan Gropman, a retired Air Force colonel, has a PhD in black military history and was chairman of the Grand Strategy Department at the National Defense University’s Industrial College of the Armed Forces. He has written four books and numerous other publications.

F304 The Enigmatic Sultan Moulay Ismail  
Thursdays, 9:40–11:05, Jan. 24–Feb. 7  
Three sessions  
Instructor: Elisabeth Wolpert  
Sultan Moulay Ismail of Morocco, a contemporary of King Louis XIV of France, dreamt of becoming as powerful as the Sun King. The two monarchs had much in common. Both were representatives of long dynasties and were fierce defenders of their respective prestigious nations. Both mastered political maneuvering, weaponry, intrigues of the court, and seduction used to ensure men’s loyalty and conquer women. Their lives were marked by battles, bloodshed, and passionate affairs. We shall try to answer a simple question: Who was the real Moulay Ismail—an Arabian tyrant or a visionary monarch, the true sun king of Morocco? If you want to visit Morocco, a country with a legendary destiny, this course is for you.  
Elisabeth Wolpert was born and educated in France, and her doctoral thesis dealt with 16th-century French literature. She enjoys being at OLLI, where she has taught several courses.

L306  Russian Jewish Immigration to the
United States: My Heritage, My Story
Mondays, 9:40–11:05, Jan. 28–Feb. 18
Instructor: Mark Weinstein
This course is presented by a third-generation
American of Russian Jewish heritage. Much of the
material comes from conversations with my
grandparents, my curiosity, and ongoing study.
Immigration is currently a hot subject, but unless
you’re Native American, we are all from immigrant
stock with our unique stories. Why did middle eastern
Jews settle in large numbers in eastern Europe in the
first place? What was life like for them there? Why did
more than two million leave from 1880 to 1924? They
were not the first Jews to arrive in America. The first
large immigration was of the middle-class Austro-
German Jews who immigrated from the 1830s on, and
who were already here when the impoverished
Russians arrived. How did my Russian ancestors get
here, where did they first settle, how did they earn a
living, how did they interact with the earlier Austro-
German Jews and the American community at large?
Russian Jews were swept up in the larger late-1880s
eastern and southern European mass migration. This
different demographic triggered new federal laws that
seriously and specifically targeted them and limited
their immigration from 1924 on. But this isn’t the
whole story; post-WWII there were two smaller
Russian waves. I weave into the narrative my family’s
and my own story in our travels, our ultimate
successes, and our responsibilities and obligations to
America, “The Promised Land.”
Mark Weinstein, an 11-year OLLI member, is a retired
electrical engineer and a docent at both Smithsonian Air
and Space Museums. He has presented OLLI courses
covering aviation and technology. He is a history buff, a
news junkie, and is intrigued by technology. In his wild
impetuous single days he flew a Piper Tri-Pacer.

L307  Revolution in Latin America: The
Success and Failure of Che Guevara
Mondays, 9:40–11:05, Jan 28–Feb 11
Three sessions
Instructor: Roland G. Estrada
Ernesto “Che” Guevara is known around the world for
his revolutionary efforts to bring political change
mostly in Latin America. He is better known for his
influence on the Cuban revolution. His death in Bolivia
in 1967 was the result of his effort to bring his “foco”
theory of revolution to the forefront. The three
lectures will cover his younger life in Argentina, his
tours around the Southern Cone, his relationship with
the Castro brothers in Mexico, his participation and
victory in the Cuban revolution, and finally his failure
to export his revolutionary brand to an isolated area of
Bolivia. How did he become so well known? The
course will discuss reasons for this and his search for
success in Latin America.
Roland G. Estrada is a retired foreign service officer who
was assigned for two tours in Bolivia, as well as other
countries in Latin America. He is a graduate of the Catholic
University of America in Washington, DC. His master’s
dissertations were on the Yom Kippur War (1973) and the
changing implications of Sino-American détente (Nixon’s
trip to China).

L308  More Russian Aerospace Designs
Tuesdays, 9:40–11:05, Jan. 22–Feb. 12
Instructor: Michael S. Moore
This course presents four independent lectures on
Russian and Soviet aerospace design efforts:
● The Mil Mi-24/-25/-35 HIND series of armed
helicopter gunships, of wide use internationally and
known as the “Devil’s Handcart.”
● The Ekranoplans, a series of wing in ground effect
machines that astonished the Western naval world,
best known for the “Caspian Sea Monster.”
● The N-1 space booster, the Soviets’ gigantic (and
unsuccessful) attempt to beat the United States to the
moon.
● Buran, the Soviets’ last-ditch effort to match the US
space shuttle.
Michael S. Moore is a United States Air Force veteran,
having served as a Russian intercept operator, and a retired
CIA officer with extensive time overseas in his 33-year
career. He has also worked for the Air Force Association as a
policy analyst and volunteered with the National Air and
Space Museum as a Russian-speaking behind-the-scenes
assistant to the Russian aviation curator. He worked for 13
years as a contractor with the CIA World Factbook,
analyzing ground, naval, and air forces of the world.
L309 20th-Century Russia and its “Near Abroad”
Three sessions
Instructor: Edward Janusz
Russia’s drive for control of its “near abroad,” a term for lands directly to its west, is a well-documented aspect of Russian history. This class will address three periods in the early- and mid-20th century when that quest manifested itself in armed conflict. The first was the 1919–1920 Polish/Russian/Ukrainian war, a little-known war that contained the communist revolution for at least two decades. The second was the Soviet invasion of Poland and the Baltic countries at the start of WWII, and the third was the conquest and subjugation of those lands at the end of that war. These events laid the groundwork for the struggle for world supremacy known as the Cold War. That struggle has resumed today over the fate of Ukraine. The class will be presented from both a western perspective and from the perspective of the residents of the “near abroad” countries affected by Russia’s expansionist policies.

Ed Janusz is an engineer by education and profession and an amateur military historian by avocation. He retired after a career in the US Army Corps of Engineers and in the aerospace and computer services industries. He is the author of Fading Echoes from the Baltic Shores, which deals with that period in history.

L310 Hard-Won Lessons: The WWII Strategic Bombing Campaign of the 8th Air Force
Wednesdays, 2:15–3:40, Jan. 30–Feb. 6
Two sessions
Instructor: Jon Schulstad
For US forces in Europe during WWII, the air war lasted approximately 33 months. The decision to use B-17s, and then B-24s, to conduct a strategic bombing campaign against German-occupied France and the German homeland was fraught with controversy, even among America’s military leaders. Could it succeed? Was it the best use of military resources? This course introduces the audience to the B-17 Flying Fortress and examines the early months of the campaign (Aug. 1942–Jan. 1943) when B-17s were directed to attack German U-boat bases in Britain. During these early months, the 8th Air Force leadership was constantly revising strategy, tactics, and target selection. This was a period when aircrews learned hard-won lessons about what it would take to sustain a bombing campaign to a successful conclusion.

Jon Schulstad is a retired United States Air Force officer who was a target planner for most of his career. He is a graduate of Miami University with BA in government and he has an MA in international affairs. He taught international politics to Royal Air Force cadets on an exchange tour in Britain.

L311 History of America in 101 Objects, Enhanced, Part 2
Thursdays, 9:40–11:05, Jan. 24–Feb. 14
Instructor: Mark Weinstein
This is not your typical comprehensive American history course. This is a review and discussion of the Smithsonian Institution’s extensive distillation of over ten million objects in their collections down to the 101 objects that illustrate American history. An Atlantic Monthly article points out 22 of the 50 most significant inventions and discoveries that occurred since the invention of the wheel and that occurred in America between 1750 and the present. Some are in the Smithsonian list and the others are added. This is the second part of a two-part course, but Part 1 is not a prerequisite. Part 1 (1750s to early 20th century) was taught in fall 2018. Part 2 will cover mid-20th century to the present. The course will contain an overlay of chronological points. As an added benefit, many of the objects are displayed in the local Smithsonian museums. The course raises several questions: How do these objects fit in particular points in our history? Did they impact a majority of the population, the economy, or the government? Are they linked to other objects and, if so, what is their combined impact?
See L306 for instructor information.

R312 The Zeppelin Story: German Rigid Airships in Peace and War
Tuesdays, 9:40–11:05, Jan. 22–Feb. 5
Three sessions
Instructor: Peter Ansoff
In the early decades of the 20th century, Germany led the development of a unique technological achievement, the rigid airship. These giant lighter-than-air aircraft pioneered long-distance air travel for both military and civilian purposes. They achieved many successes, although their memory is forever tarnished by the 1937 Hindenburg disaster. This course will trace their story from the early experiments at the beginning of the century through their use as the first strategic bombers during World War I, the rebirth of the Zeppelin Company after the Treaty of Versailles, the rise of the Nazis, and the birth of transatlantic passenger air travel. Along the way, we will meet several fascinating historical characters and learn how
technology and politics shaped the Zeppelin story.

**Peter Ansoff** is an OLLI member and is retired from a career as an acquisition support contractor for the United States Navy. His research interests include vexillology (the study of flags), maritime history, and lighter-than-air aviation history. He has previously taught OLLI courses related to rigid airships.

**R313 The Fall of Constantinople and the Rise and Fall of the Ottoman Turks**

*Tuesdays, 11:50–1:15, Jan. 22–Feb. 12*

**Instructor: Pat McGinty**

The Eastern Roman Empire (Byzantine) ceased to exist with the fall of Constantinople to the Ottoman Turks on May 29, 1453, and was replaced by the Ottoman Empire. Like the Eastern Roman Empire, the Ottoman Empire experienced rapid growth and became the dominant geopolitical power in the eastern Mediterranean, only to suffer a fate similar to its predecessor. Join us as we try to answer the questions: How and why do world powers rise and fall, and are there lessons to be applied to today’s geopolitical arrangements?

*Patrick McGinty,* an OLLI member, is a retired naval officer with an MA and PhD in history from Georgetown University. He has taught various history, political science, and psychology courses in Texas, Maryland, and Virginia. His areas of specialization at University of Maryland University College were the history of terrorism, the history of violence in America, and the history of substance abuse in America.

**R314 History of Immigration in the United States**

*Wednesdays, 11:50–1:15, Jan. 23–Feb. 13*

**Rose Gallery at Reston Community Center, Lake Anne**

**Instructor: Richard Stillson**

When I was growing up in California in the 1950s, a question sometimes asked of any new kid was “What are you?” The question was understood to mean “What country did your family come from?” or “What is your nationality?” The expected answers were Irish, English, French, Mexican, Chinese, or any nationality other than American. Although their families may have first come to the United States many generations ago, somehow the immigrant status of families was still considered important, even among kids. While we are a nation of immigrants, immigration has been a controversial issue since John Adams’s Alien and Sedition Acts of 1798, and continues to be one of the most provocative issues in our very contentious politics. What is “American culture” in a country that is constantly changing because of the mix of immigrants, each group maintaining large parts of its original culture? This course will help put these questions and the broader issues in context by looking at the detailed history of immigration in the United States.

**Richard Stillson** has a PhD in economics from Stanford. After a career at the International Monetary Fund, he retired to indulge his passion for history and earned a PhD in history from Johns Hopkins University. Stillson is the author of *Spreading the Word: A History of Information in the California Gold Rush.*

**F402 James Joyce’s Dubliners**

*Mondays, 11:50–1:15, Jan. 28–Feb. 18*

**Instructor: Michael Malouf**

This course is devoted to the landmark short story collection *Dubliners* by James Joyce. These 15 stories, which trace Irish lives from childhood to middle age, include such classics as “Araby” and “The Dead.” We
will also consider how these stories lay the groundwork for Joyce’s art that would develop in his later modernist novels.

Michael Malouf received his PhD at Columbia and is an associate professor of English at George Mason University. His book, *Transatlantic Solidarities: Irish Nationalism and Caribbean Poetics*, was published by the University of Virginia Press in 2009.

**F403 The Book of Job**
  **Tuesdays, 11:50–1:15, Jan. 22–Feb. 12**
  **Instructor: Tom Manteuffel**

The author of the book of Job, whose name we do not know, takes as his starting point a story that is already ancient. The story plumbs the question: if God is both all-powerful and loving, how can he not intervene when evil thrives and the innocent suffer? Profound as that question is, this course focuses on the literary artistry of the book of Job rather than its answer to that question. It is literary rather than theological. The book of Job is the most carefully structured book in the biblical canon, and it contains its richest poetry. It has inspired numerous other artists, such as, Blake with his ethereal watercolors. The course will be based on Stephen Mitchell’s poetic rendering into English of the biblical Hebrew, but with many other translations brought to bear as well. As we will discover, this book is not about patience!

Tom Manteuffel holds an MA in philosophy from the University of Chicago and studied graduate computer science at the University of North Carolina at Chapel Hill. He has studied the book of Job since he was a teenager. In the spring, he will be teaching cybersecurity at OLLI.

**F404 “The Shorthand of Emotion:” The Infatuation between Pop Music and Literary Fiction**
  **Tuesdays, 2:15–3:40, Jan. 22–Jan. 29**
  **Two sessions**
  **Instructors: Kay Menchel, Cameron Menchel**

In this course we will take a look at the symbiotic relationship between popular music and literature. We will consider both how certain novels and stories have shaped songs and how various songwriters have stimulated novelists. Vladimir Nabokov and Flannery O’Connor, two of the writers we’ll discuss, are seemingly unlikely sources for songs. However each has left a noticeable imprint on more than one generation of musicians. The Beatles, given their staggering popularity and accessibility, might seem an improbable literary influence. Yet, they have inspired affectionate pastiches and, in the case of Haruki Murakami, a major novel. We’ll listen to the songs that we discuss and provide excerpts from the novels and short stories.

Kay Menchel, who grew up in Yorkshire, England, is a lawyer who also holds an MA in English literature from George Mason University. She enjoys sharing her passion for English literature with OLLI members.

Cameron Menchel, the son of Kay Menchel, received a BA in English and graduated Phi Beta Kappa and summa cum laude from the College of William & Mary. He also received honors in his major for a thesis on Emily Brontë’s *Wuthering Heights*. He is interested in pursuing graduate study in literature and is delighted to have the opportunity to teach at OLLI in the meantime.

**F405 Poetry Workshop**
  **Tuesdays, 2:15–3:40, Jan. 22–Feb. 12**
  **Moderators: Mike McNamara, Jan Bohall**
  **Class limit: 16**

This workshop allows both novice and experienced poets the opportunity to share their work and receive suggestions for improvement. Workshop members should bring an original poem in draft or in revised form to each session. Two poems should be sent to the Tallwood office for duplication one week before the first class meeting and a third poem brought to the first session. The moderators will email students after registration to let them know exactly when and where to send their poems for the first class.

Mike McNamara, an OLLI member, has been published in several literary journals and magazines and has received awards from the Poetry Society of Virginia.

Jan Bohall, also an OLLI member, has had poems published in various periodicals and has won awards from the Poetry Society of Virginia.

**Instructors: Brenda Cheadle, Kathryn Russell**

Become reacquainted with such familiar names as Walt Whitman, T.S. Eliot, Elizabeth Bishop, and others, who help us to see more clearly, to feel more acutely, and to understand more deeply. These poets have had profound influence on other writers of their time and ours. We will also meet some lesser-known modern and contemporary poets such as Richard Wilbur, Naomi Shihab Nye, and Mary Oliver, whose works delight the senses and stretch the imagination. All these poets illuminate our past and project visions of the future. In this course we will explore a rich selection of poems, enhanced by accompanying audiovisual resources.

L415 The Literature of Baseball
Thursdays, 11:50–1:15, Jan. 24–Jan. 31
Two sessions
Instructor: Jim Dunphy
Baseball has a rich history of exciting games and larger-than-life heroes. But baseball also has served as the backdrop for many superb works of literature. In this class, we will look at some of the finest examples of baseball fiction, many of which, under one name or another, have been turned into award-winning movies.
Languages

We will also briefly touch on some of the best nonfiction books on baseball. After this class, you will have a choice—head to the ballpark, or head to the library. In either event, you will be able to sit down with a hot dog and a beer and enjoy the best of baseball.

Jim Dunphy, who was born in Brooklyn shortly before the Dodgers left, had the misfortune of first being a Mets fan when he grew up and then moving to the DC area shortly after the Senators decamped for Texas. He has been a partial season ticket holder for the Nationals since 2012, and many years later is still waiting for the first postseason series win. He has taught, and plans to continue to teach, a series of classes about both the Nationals and baseball.

Jim Dunphy has taught a number of classes at OLLI. As a child in Brooklyn, NY, he was brought up not only on the music of Pete Seeger, Woody Guthrie, and Leadbelly, but on the poems of Barrack-Room Ballads.

**F601 Exploring Four Biblical Narratives**

*Mondays, 9:40–11:05, Jan. 28–Feb. 18*

**Instructor:** Steve Goldman

- **Jan. 28:** Reaching for Perfected Love: We often use the term “love” to describe feelings about a wide range of disparate things. We often say that we “love” baseball, our family, beach vacations, ice cream, and so on. In this session, we will explore what the Bible says about the meaning of love and how it often differs with many common understandings.
- **Feb. 4:** The Resurrection of the Dead: The Hebrew scriptures and New Testament speak of the resurrection of the dead and a day of judgment. But do all the different writers concur regarding when and how it occurs and what it means? In this session, we
Religious Studies will examine this critical matter, which is often a source of controversy and disagreement among those who consider the Bible a sacred text.

- **Feb. 18:** Life Lessons from Proverbs: A Biblical “Self-Help” Narrative: Self-help books abound in modern literature because so many of us want to discover the path to living a productive life. However, the most useful self-help advice may be found within the pages of ancient texts. In this session, we will examine what the Book of Proverbs offers as a guide to living and how other biblical texts expand upon its teachings.

Steve Goldman is the chair of OLLI’s Religious Studies Program Planning Group and has taught numerous courses on alternative understandings of biblical doctrine.

### F603 The Power of Myth

**Wednesdays, 11:50–1:15, Jan. 23–Feb. 13**

**Class limit: 80**

**Instructor: Johnnie Hicks**

Joseph Campbell (1904–1987) was an American mythologist, writer, and lecturer best known for his work in comparative religions. Many of us remember him for the fascinating responses to interviews with journalist Bill Moyers in the 1986 PBS series, *The Power of Myth*. Moyers has summarized the guiding idea of Campbell’s work to be “the commonality of themes in world mythologies and religions that center on the human psyche for a ‘centering’ in terms of deep principles.” This course will draw from portions of these interviews, as well as other Campbell books and writings, to examine some common themes in mythologies that he refers to as “the song of the universe ... music we dance to even when we cannot name the tune!” Following the viewings, participants will be invited to join in discussing some of these major universal themes.

Johnnie Hicks, a professional educator and counselor, carries a lifelong passion for learning about world cultures and religions. She has twice lived in Iran where she taught at the Tehran American School and visited neighboring countries. She retired from Fairfax County Public Schools and has taught several courses on multicultural topics for George Mason University.

### F604 Models of Christian Development: The Changing Focus of Christianity

**Thursdays, 9:40–11:05, Jan. 24–Feb. 14**

**Instructor: John Rybicki**

Jesus did not found a formal organization called “church,” but Jesus did have followers. After Jesus’s death and resurrection these followers continued on as an *ecclesia*, an “assembly of believers,” to proclaim the gospel of Jesus and to await or establish the Kingdom of God on earth. Eventually, this assembly of believers became institutionalized as a formal, dogmatic, elitist “church.” There were numerous influences both within the community of believers and external to it that changed Christianity. These changes altered not only the organization of the community but its beliefs and goals. The “church” that was to change the world was, in fact, changed by it. This series will trace the development of the institution from Jewish sect to monarchial authoritarianism to its current fragmentation.

John Rybicki has diplomas in theological studies from both the Virginia Theological Seminary and the Antiochian Orthodox Church. He studied at Saint George’s College in Jerusalem and received a master’s degree in theology from the Saint John of Damascus Institute of Theology, Balamand University. He has been a presenter at OLLI for over 20 years.

### F605 What Is? Rethinking Everything We Know about Our Universe

**Thursdays, 11:50–1:15, Jan. 24–Feb. 14**

**Instructor: Mendel Deitsch**

Imagine that you were able to rethink everything you knew about the universe, the laws of nature, your own consciousness, and the very idea of existence and reality. Imagine the new insights you will gain, the
fresh perspective with which you will embark on the journey of life each morning. “What Is?” does exactly that. Drawing on the wisdom of Chassidic teaching, the most basic building blocks of existence are reexamined from the bottom up, revolutionizing our understanding of life, reality, and our place in the world.

Rabbi Mendel Deitsch grew up in Fairfax, VA, and studied at rabbinical seminaries in France, Brooklyn, Israel, and Canada. He and his wife, Raizel, currently run Chabad at George Mason University, providing support and educational opportunities to the Jewish students of Mason. Deitsch also serves as the youth and educational director at Chabad of Northern Virginia.

L606 Destroyer of the Gods: Christianity’s Triumph in the Roman World
Tuesdays, 9:40–11:05, Jan. 22–Feb. 12
Instructor: Jack Dalby
Christianity’s astounding success in the ancient Roman world was not preordained—far from it. In this academic-based class, we will examine the many reasons, large and small, why Christianity grew from a tiny group of apocalyptic Jews in the year 30 CE, to being proclaimed the official religion of the Roman Empire in 380 CE. Topics for discussion will include the historical Jesus, the ministry of St. Paul, early Christology, heresies, battles over the Trinity, Roman persecution of Christians, the variety of Christianities, Constantine’s conversion, and more.

Jack Dalby, president of White Oak Communications, is an OLLI member who has taught classes on the historical Jesus, St. Paul, and early Christianity. He holds a BS in communication arts from James Madison University and has taken graduate history classes at George Mason University.

R608 The Theology of Les Misérables
Tuesdays, 11:50–1:15, Jan. 22–Feb. 12

Sacrifice, forgiveness, the refusal to accept forgiveness, repentance, redemption, law, justice, grace, mercy, pride, greed, humility, and perfected love are some of the grand themes affecting the human condition explored in Victor Hugo’s classic 19th-century novel Les Misérables. We will examine how it presents a romantic, sublime theology that challenges us regarding our own ethical standards and interpersonal relationships.

**F653 Exploring Habits**
**Class limit: 30**
**Instructor: Beth Davis**
We often talk about changing bad habits or creating new healthy habits, but do we really understand the effect that habits have on our daily lives? Author Gretchen Rubin in her book, *Better Than Before*, characterizes habits as “deciding not to decide.” These automatic routines have been stored in our brains through repetition and help our brains conserve energy. Habits are part of the reason that we find ourselves turning off lights when we leave a room, putting on our seat belts in the car and constantly checking for the latest news update. We will explore current research on habits, and strategies for habit formation and change. Using this information, at the end of the class each student should be able to create an action plan to create and maintain desired habits in their daily lives. Class discussion so that members can share their perspectives and experiences will be encouraged.

Beth Davis is an OLLI member and an executive coach trained in the George Mason University Leadership Coaching for Organizational Well-Being program. She believes that understanding our habits and actively creating desired habits is a key component to successful life transitions. Beth holds a master’s in accounting from Strayer University and a bachelor’s in industrial engineering and operations research from Virginia Tech.

**F702 Politics and Policy**
**Wednesdays, 9:40–11:05, Jan. 23–Feb. 13**
**Instructor: Helen R. Desfosses**
**Fairfax Lord of Life**
We live in a time of growing cynicism about politics, and about our nation’s ability to surmount partisan polarization to thrive as a 21st-century democracy.
This fast-paced course will first look at the neutral realities of politics and policy: that policy is what government does and does not do with its scarce resources, while politics is the process by which these choices are made. Exposure to, and consideration of, a daily news source will be invaluable in this course, allowing us to look at gripping case studies taken from daily events. In week two, drawing on an in-class discussion of any edition of the short paperback or ebook by Chris Matthews, *Hardball: How Politics Is Played Told by One Who Knows the Game*, we will discuss which political skills, actors, and arenas are invaluable and how they can be mastered. Week three will find us analyzing whether the built-in institutional fragmentation and frequent paralysis of the American political system can be bridged again through bipartisan cooperation and inspiring leadership, or whether constitutional change is necessary. Finally, we will debate traditional methods of citizen impact, the promise and perils of the ever-changing social media, as well as the lessons of the 2018 midterm elections for the 2020 presidential campaign.

**Dr. Helen R. Desfosses** has taught many OLLI courses on contemporary politics. She bases her courses on her PhD in political science, her many years of research and teaching, as well as the lessons learned through her years of media commentary, campaigning, and serving in elected political office.

**R703 All the News That’s Fit to Print**

**Thursdays, 11:50–1:15, Jan. 24–Feb. 14**

**Instructor: Richard Kennedy**

We live in an age of abundant information from TV, radio, the Internet, magazines, bumper stickers, and newspapers. How should we filter these sources and evaluate information about world events, popular trends, and advances in science, business, sports, and entertainment? In this discussion group, we will look at some of the hot topics of the day. All viewpoints and opinions will be respected, appreciated, and welcomed. In a democracy, agreement is not required, but participation is.

**Dick Kennedy**, an OLLI member, is a retiree from the senior executive service at the Department of Housing and Urban Development. He enjoys analyzing the news from multiple sources and engaging in good discussions with colleagues.

Mondays, 9:40–11:05, Jan. 28–Feb. 18
Instructor: Stephen Ruth
If you are comfortable with today’s information technology (IT) world, this course is probably not for you. The instructor, who teaches technology policy at Mason, continues to collect dozens of what he thinks are the scarier, more worrisome, and potentially game-changing topics in IT that may be in our near-term and long-term future. Many are already major news stories, while others are just about to break the surface. Here are some of the topics that will be covered: revenge porn, phishing, cyberbullying, disruption by cryptocurrencies, big data, crowdsourcing, bots and scrapers, e-waste, cyber terrorism, fake news, skin gambling, weapons of math destruction, e-gambling, ransomware, doxing, twitterbots, Etherium, network neutrality, the Twitter effect, algorithms, the Internet of Things, and many more. Stephen Ruth, PhD, is a professor in the School of Public Policy and has been at George Mason University for over 30 years, specializing in return-on-investment measurements of IT projects, especially in poor nations. He is director of the International Center for Applied Studies in Information Technology (ICASIT), which has used grant-generated funding to set up computer-based systems in over 20 developing nations over the past two decades. R806 The Advancement of Medical Diagnostic and Treatment Instrumentation in the 21st Century
Thursdays, 9:40–11:05, Jan. 24–Jan. 31
Two sessions
Instructor: Evan Douple
In the past two decades, advancements in the development of tools for earlier, more accurate, and less invasive medical diagnoses of various diseases have been remarkable and should continue to have a positive impact on human health care. This course will examine how key discoveries from multiple scientific disciplines have refined the use of radiation to detect disease (MRI, CT, ultrasound, and nuclear medicine) and improve its treatment (particle accelerators, the gamma knife, deep-brain stimulation, and focused ultrasound). The arsenal of biomedical engineering
instrumentation can enable the physician to “look” inside the body and conduct procedures in a manner that has come a long way from the days of your father’s doctor’s stethoscope.

Evan Douple, an OLLI member, is a radiation health effects specialist with a PhD in radiation biophysics. He was a professor at the Dartmouth Medical School, directing the biomedical engineering research program of the Norris Cotton Cancer Center and conducting cancer research.

Everyone has heard of the Beatles, the Rolling Stones, Elvis, and many other artists who had scores of hits over multiple decades. 953 Beautiful and Destructive: Controlling Invasive Plants
Friday, 1:00–2:30, Jan. 25
Tallwood
Instructor: Erin Stockschlaeder
Coordinator: Fred Kaiser
Over the last 30 years, invasive plant species have slowly taken a firm foothold in our area by out-competing our native species. Often beautiful and with no predators or pathogens to keep them in check, they can have damaging effects in yards, gardens, and parklands. Plants such as English ivy, Japanese honeysuckle, and Tree of Heaven are invasive and wreak havoc in our natural areas. Erin Stockschlaeder will present a discussion of the leading invasive species in Fairfax County and the award-winning control program now being conducted in Fairfax County Parks.

Erin Stockschlaeder is an ecologist and the program coordinator for the Invasive Plant Management Area Program for the Fairfax County Park Authority. She has a BS from the State University of New York and a master’s degree from George Mason University.

Coordinator: Nancy Scheeler  
Last winter, Reston Book Club members discussed the National Book Award and Pulitzer Prize-winning novel, *The Underground Railroad* by Colson Whitehead. This one-session class, grounded in the initial book club discussion, centers on three interrelated perspectives on the novel—fiction, magical realism, and immigration. We will discuss each element separately and how each builds on the other to create this insightful exposition of man's inhumanity to man juxtaposed with man's universal and overwhelming desire for freedom. There will be printed excerpts of salient portions of the novel available.  
Linda Blair, a retired Fairfax County high school English teacher, English department chair, and International Baccalaureate Diploma program coordinator, earned BA and MA degrees at George Mason University and a PhD in American literature at The George Washington University.

956 Author Discussion of *Where the Birds Never Sing*  
Tuesday, 2:15–3:40, Jan. 29  
Fairfax Lord of Life  
Instructor: Jack Sacco  
Coordinator: Leo Brennan  
In his award-winning book, *Where the Birds Never Sing*, author Jack Sacco bears witness to the reality of the Holocaust, including his father's role as one of the American soldiers who liberated the notorious Nazi concentration camp at Dachau. On the morning of April 29, 1945, Joe Sacco—a farm boy from Alabama and the only son of Italian immigrants—entered the Dachau concentration camp. There, he and members of his battalion witnessed a tragedy unlike any they could have ever imagined—the slaughter of thousands of innocent Jewish prisoners by Hitler’s Third Reich. The Holocaust ended the minute Joe Sacco and his buddies entered the camp. In his lecture, the instructor not only tells of his father’s journey through some of the most historic battles of the 20th century but, perhaps more importantly, presents a firsthand account of the atrocities of the Holocaust and the lifelong impact the liberation had on the liberators.  
*Jack Sacco*, a graduate of the University of Notre Dame, is in demand as a public speaker, who lectures widely throughout the United States and abroad. Additionally, he gave a special presentation before the royal families of Europe, including the Habsburg, Luxembourg, and Liechtenstein families.

958 The Normans  
Wednesday, 2:15–3:40, Jan. 30

During the 10th and 11th centuries, Normandy was Western Europe's medieval melting pot, combining Viking, Frankish, and Saxon peoples. The Normans were known for their religious and military zeal, conquering territories throughout the Mediterranean and, perhaps most famously, their neighbors across the English Channel. This lecture will explore the Normans' Viking roots, their conquests, and their role in the Crusades, along with their contributions to medieval culture and religion, many of which can still be felt today.  
*Stephanie Campbell* attended the College of William & Mary, where she earned a BA in history and a second BA in medieval and Renaissance studies. She then attended Catholic University, where she earned an MA in history with a concentration in medieval history. Her special interests include the history of persecution, the Black Death, and the Carolingian Empire. She currently works as a full-time instructor at Northern Virginia Community College, where she teaches western civilization and world civilization classes and is the acting faculty advisor to the Loudoun Campus History Club.

960 Where They Played: History of Ballparks in DC
Friday, 1:00–2:30, Feb. 1
Tallwood
Instructor: Jim Dunphy
Many OLLI members have enjoyed a ballgame (and perhaps a beer and a dog) at the Nationals’ sparkling new park in the Southeast Riverfront. Perhaps a few attended games at RFK (or saw the second incarnation of the Senators there). Perhaps a few can even trace their baseball attendance to Griffith Stadium, now part of the Howard University Hospital complex. But we doubt that there are any fans who attended games at the Swamoodle Grounds, American League Park I (or II), or the Capitol Grounds. This presentation will trace where baseball was played in DC by the Washington Nationals (yes, the Nationals!) of the 1871 National Association, the Washington Statesmen of the 1884 Union Association, and any number of Washington Senators. We will consider what the parks looked like—most would not pass muster for the lowest minor leagues today—where they were, and what is standing in their location now. So the next time you head to Nationals Park, hoist a beer in salute to the more than half a dozen places in DC where the cry “Play ball” has been heard over the past 150 years.

Jim Dunphy, a long-time Nationals season ticket holder, has taught a number of OLLI classes in history, music, baseball, and whatever else tickles his fancy.

961 On the Street Where he Lived: The Musicals of Alan Jay Lerner
Saturday, 9:30–12:00, Feb. 2

Note date and time
Tallwood
Instructor: Dan Sherman
Alan Jay Lerner was a lyricist and librettist who created some of the most popular works in musical theatre for both stage and film. Although he was best known for transforming the play Pygmalion into My Fair Lady, Lerner’s work spanned more than 30 years and offers many insights into what makes for a successful (or unsuccessful) musical. This multimedia course will cover Lerner’s work and life and will draw on film and audio clips of performances of his work.

Dan Sherman has taught nearly 20 OLLI courses over the past seven years, including many on American musical theatre. Sherman holds a PhD in economics from Cornell and served as managing director at the American Institutes for Research.

962 The Best Novel of Them All
Monday, 11:50–1:15, Feb. 4

Loudoun
Instructor: Conrad Geller
Laurence Sterne’s The Life and Opinions of Tristram Shandy, Gentleman was a sensation when it first appeared in 1759, and ever since it has been an object of both unrestrained praise and critical neglect. A rollicking, ungovernable tale of life in that period, it defies literary definition and has been called a novel that could never be made into a film (one was, in 2005, a miserable failure). This lecture will attempt to bring some order to the seeming chaos of this book, without, however, explaining its existence or its lasting popularity. Reading the novel in advance is unnecessary and, indeed, not recommended.

Conrad Geller considers himself a reincarnation, or at least a soul-mate, of the Rev. Mr. Sterne. He is also an OLLI member, which should allow him some leeway.

963 Virtual Reality/Augmented Reality “101:” Background, Now, Future
Monday, 2:15–3:40, Feb. 4

United Christian Parish, Reston
Instructor: Cherie Lejeune
Learn how Virtual Reality (VR) is being used today, including a wide range of health-related applications. It is becoming commonplace in many physical and cognitive therapeutic settings. Augmented Reality, now embedded in some smartphones, is making a difference in our daily routines as well. Some VR
equipment can be tried by students in this class. The instructor’s excitement for the future, when many more digital tools will be integrated into the fabric of older users’ lives, will be clear when participants hear her passionate presentation.

Cherie Lejeune found a third-act career as a champion for technology awareness and best use practices for older users. She has taught workshops, has been a frequent panelist for seminars, and works one-on-one with cognitively challenged adults and their caregivers. She consults for cutting-edge gaming companies that focus on health applications, especially in the emerging VR industry. She enjoys a variety of community leadership roles that include first vice president for both the National Capital Area Garden Clubs, Inc., and General Federation of Women’s Clubs Northern District VA. She is co-author of Fairfax County’s Neighbor to Neighbor 50+ Initiative, and is the Human Services chair for the Fairfax Federation Citizens’ Association. She was a panelist for the first VOICE summit (where Amazon was primary sponsor) in New Jersey in July 2018.

964 Were You There? The 1964-65 New York World’s Fair
Tuesday, 2:15–3:40, Feb. 5
Tallwood
Instructor: Martha Powers
More than 50 million people visited the World’s Fair in Queens, NY, in 1964-65. They saw pavilions touting products by Chevrolet, IBM, Westinghouse, and other corporations, while noshing on Belgian waffles and Chun King delicacies. If you were there, you may remember the iconic Unisphere, the US Royal Tire Ferris wheel, and the introduction of the Ford Mustang. Thanks to the wonders of the internet, this class will offer video clips and photos galore from the fair, along with opportunities for OLLI members to share memories about this once-in-a-lifetime event. We’ll also examine a perturbing question: why do we no longer have such marvelous fairs today?
See F412 for instructor information.

965 Overcoming Racial Amnesia
Wednesday, 2:15–3:40, Feb. 6
Fairfax Lord of Life
Instructor: Bill Sizemore
Bill Sizemore tells the story of how he discovered late in life that his Virginia ancestors were slave owners, a story that lay buried by a century of denial and historical amnesia. Its threads run through the Civil War, Reconstruction, Jim Crow, the Great Migration, the struggle for civil rights, and the crippling legacy of slavery that still plagues the nation today. Sizemore has written a book about it: *Uncle George and Me: Two Southern Families Confront a Shared Legacy of Slavery*. In microcosm, it is the story of Virginia and the South. In telling it, Sizemore hopes to advance an essential, if painful, national conversation about race.

Bill Sizemore grew up in segregated small-town Virginia and spent 43 years as a journalist, most of that time at The Virginian-Pilot, the state’s largest newspaper, where he was a Pulitzer Prize finalist in 2007. Since his retirement in 2014, he has written two books.

966 A Conversation with a World War II Fighter Pilot
Wednesday, 2:15–3:40, Feb. 6
Rose Gallery at Reston Community Center, Lake Anne
Instructor: Col. Robert A. Shawn (Ret.)
Colonel Robert A. Shawn (Ret.), who will turn 99 years old May 6, was a fighter pilot during World War II in the 9th Air Force. He flew the P-47 Thunderbolt, nicknamed the Jug, and the Mustang P-51. He served in the Air Force for 30 years, flying during the wars in Korea, Vietnam, and the Cold War era. He flew 37 different planes on 323 missions. He is a great storyteller and will happily share his wartime experiences in this interactive session. You will be surprised at how much humor he found in the midst of war.

Col. Robert A. Shawn (Ret.) received an MS from Cornell University and spent the last five years of his 30-year military service as an acting Brigadier General, evaluating and inspecting the Air Force food service all over the world. After retirement, Shawn became the general manager of various country clubs.

967 The Russian Revolution of 1917
Thursday, 2:15–3:40, Feb. 7
Loudoun
Instructor: Rex Wade
The Russian Revolution of 1917 is one of the most important events of modern history. Much of the world’s political, social, economic, and cultural life of the 20th and 21st centuries flowed out of or was profoundly affected by it. Our basic knowledge and understanding of what happened that year has changed dramatically over the past half-century. This talk will look at the revolution with special emphasis on new interpretations of what constituted the revolution. We will look at the political and social history as well as incorporating groups often left out of previous studies: women, front soldiers, national minorities, etc.

Rex A. Wade is professor of history, emeritus, at George Mason University. Before coming to Mason 30 years ago, Wade was at the University of Hawaii for 18 years, where he was chair of the department of history, dean of the College of
Arts and Humanities, and acting vice president for academic affairs. Before that he taught at the University of Wisconsin at LaCrosse. He is the author of multiple books, most recently *The Russian Revolution, 1917* (Cambridge University Press, Third Edition, 2017), as well as many scholarly articles.

**968 PT Boats in the US Navy: Their Place in American Culture and Famous Personalities Connected with Them**

Friday, 1:00–2:30, Feb. 8

**Instructor: Blane Ampthor**

The US Navy’s World War II Patrol Torpedo (PT) boat had its origins in several countries but is viewed as uniquely American. This weapon, considered experimental by the Navy, became critical to United States operations during World War II. It is now associated with Hollywood stars and leaders of our country and is featured in television and movies. **Blane Ampthor** is a federal government employee who has had a lifelong interest in World War II history, particularly the role of the US Navy.

**969 Russia’s 1990s and the Preconditions for Putin’s Authoritarian Rule**

Monday, 11:50–1:15, Feb. 11

**Instructor: Steven Barnes**

In the late 1980s and early 1990s, Russia experienced a wave of democratic optimism culminating in the end of Communist dictatorship. How did we get from that to wide public support for the relentless authoritarianism of Vladimir Putin? **Dr. Steven Barnes** is an associate professor and specialist in the history of the former Soviet Union at George Mason University.

**970 The “Wings of War”**

Monday, 2:15–3:40, Feb. 11

**Instructor: Harry Cawood**

**Coordinator: Bob Coffin**

This class traces the development of military aircraft from World War I through the Cold War era, using the perspective of the real aircraft on display at the Steven F. Udvar-Hazy Center in Chantilly. Rather than tracking their changes on a purely chronological basis, it groups the air weapons by type: fighter, bomber, ground attack, night fighter, recon, and helicopter. It then analyzes the rationale for, construction concerns about, and unique capabilities of each weapons system. Learn about everything from the WWI Nieuports to the Cobras of Vietnam. A coda at the end speaks to the price paid in those wars. **Harry Cawood** has been a docent at the National Air and Space Museum for over 20 years, starting at the Garber Reconstruction Facility in the early 1990s. He is currently leading the effort in a program to “Bring the Museum to the People.” He selects, trains, and mentors new Air and Space instructors and has made presentations at OLLI Montgomery College.

**971 Learning History from Historical Fiction**

Tuesday, 9:40–11:05, Feb. 12

**Instructor: David Heymsfeld**

Sometimes historical fiction can give us a better picture of the past than conventional history. A conventional historian must justify his or her interpretations by documentary evidence and individual interviews. The available evidence may be incomplete or create an inaccurate picture. The novelist seeking to convey the past is free to use his or her sense of how people think and act. As a result, the novelist may be able to provide the best picture of the thoughts and actions of political leaders and ordinary people. This class will consider historical fiction in general and then look at the history portrayed in several novels: Herman Wouk’s *The Winds of War* and *War and Remembrance*, both about World War II, and Tom Wolfe’s *The Bonfire of the Vanities*, depicting politics, racial unrest, and social classes in New York City in the 1980s. **David Heymsfeld**, an OLLI member, was a congressional professional staffer for 35 years. He has taught several OLLI courses on history and is a volunteer guide for the Newseum.

**972 A Personal Story of Meeting Dieter Dengler, the First US Airman to Escape Captivity in the Vietnam War**

Tuesday, 9:30–11:30, Feb. 12

**Instructor: Lynn Gramzow**

When a young 16-year-old, the instructor, met a German-born US airman, 21-year-old Dieter Dengler, stationed at Lackland AFB. This is her memory of Dieter before he went to Vietnam. You will also learn what happened to him later. Included will be scenes from the documentary *Little Dieter Wants to Fly* and from the movie *Rescue Dawn*. **Lynn Gramzow** was an English as a second language teacher with the Defense Language Institute. She taught in Germany and Vienna and also in Vietnam teaching South Vietnamese soldiers during the war. She has taught Readers’ Theater at OLLI and continues to work with RT and the OLLI Players.

973  Slavery, the Bible, and Lincoln’s Second Inaugural Address
Tuesday, 9:40–11:05, Feb. 12
United Christian Parish, Reston
Instructor: Steve Goldman
This session is offered in recognition of President Abraham Lincoln's birthday. In his second inaugural address, Lincoln highlighted the irony that both the North and the South used the same Bible to declare their causes to be just. Who had the better case based on Biblical texts? How did Lincoln interpret the Bible and how did it influence his understanding of slavery and the Civil War? In this session, we will explore the answers to these questions and see how Lincoln crafted an elegant argument regarding the hand of God in human history.
See F601 for instructor information.

974  Iditarod: Alaska's Last Great Race
Tuesday, 2:15–3:45, Feb. 12
Note time
Tallwood
Instructor: Dorothy M. Cunningham
Run the Iditarod (1,046 miles) over mountainous, dangerous terrain with the best-conditioned athletes. These beautiful, well-trained dogs comprise a team led by a musher (driver). This class will teach you about the unique participants, the rules, training of the dogs, veterinary care, and the responsibilities of the musher. The dogs’ desire to run and to please and protect their musher makes this race a truly fascinating event. You, too, can follow the mushers and their dogs, cheer on the teams, and witness the dedication of these incredible animals.
Dorothy M. Cunningham holds a BA in English from the University of Rhode Island and has taught both public and private school for over 35 years. The Iditarod has been a favorite topic among her students and their parents for many years. After trips to Alaska for teachers’ conferences where she witnessed the start of the race, interacted with the mushers and veterinarians, etc., she intends to share her knowledge and love of the dogs and race called the Iditarod. Previous presentations have been at OLLI programs at George Mason University and the University of Rhode Island.

975  A Wild Solution for Climate Change
Wednesday, 2:15–3:40, Feb. 13
Fairfax Lord of Life
Instructor: Thomas Lovejoy
Coordinator: Fred Kaiser
Climate change is intimately intertwined with the biology of the planet. Dr. Lovejoy will describe the central role that forests and other ecosystems play and the observed and projected effects on the planet. He will also look at the contribution that ecosystem restoration can make in removing carbon dioxide from the atmosphere before it traps and radiates more heat and causes further climate change.
Thomas Lovejoy, known as “the Godfather of Diversity,” is a university professor at George Mason University who has worked in the Brazilian Amazon since 1965 on the interface of science and environmental policy. Lovejoy developed the concept of debt for nature swaps and was the World Bank’s chief biodiversity advisor and lead specialist for the environment for Latin America and the Caribbean. 976  Future History
Wednesday, 2:15–3:40, Feb. 13
Rose Gallery at Reston Community Center, Lake Anne
Instructor: Al Carroll
One of the most important benefits of studying history is the ability to predict and warn. Al Carroll is associate professor of American Indian and Latin American history at Northern Virginia Community College. He received his MA from Purdue University and his PhD from Arizona State University. Previously he taught at San Antonio College and St. Philip’s College in San Antonio, Texas, and was a Fulbright scholar in Indonesia. He is the author or editor of six books and numerous articles.

977  Neither Snow nor Rain, But Amazon?
Thursday, 9:40–11:05, Feb. 14
Tallwood
Instructor: Christine Pomerenening
Coordinator: Luci Martel
The United States Postal Service is one of the oldest and most trusted organizations within the federal government. However, recent (and not-so-recent) developments have led the USPS to the brink of financial collapse, and many people think it will need to change radically to survive in the new economic environment. This class will analyze some of the reasons for the current situation, from technological changes to government reorganization to the universal service obligation, and explore options for change.
Christine Pomerenening has taught at George Mason University since 2004. Her areas of expertise include
infrastructure and cyber-physical systems security, risk management and resilience, and national and international governance. She was a senior research associate at the Center for Infrastructure Protection at Mason’s School of Law, focusing on public- and private-sector responses to industrial accidents, natural disasters, and terrorist attacks. Currently, Dr. Pommerening is a managing director at novaturient, a consultancy specializing in organizational change and risk management, with clients in government and the private sector. Coordinator: Carolyn Kramer
The newest museum in the Smithsonian’s collection—the National Museum of African American History and Culture (MAAHC)—opened two years ago to international acclaim. Since its dedication, it has hosted over four million visitors and has one of the longest waiting periods, or “hang times,” of any Washington museum. What makes this museum so popular? What is its major purpose? What’s the best way to experience it? Why were passes required on weekends? These questions and many others will be answered during this presentation. This lecture will cover the historical and philosophical foundations of the museum and the layout of each of the museum’s seven floors. You will learn about each of the gallery exhibits (with highlights) as well as current special exhibits. Anecdotes from the lecturer’s experience as a docent will also be included.

Dr. Johari M. Rashad is a retired federal employee who received a bachelor’s degree in Afro-American Studies at Howard University, taught Equal Employment Opportunity and diversity courses to thousands of federal employees during her career, and currently teaches an American diversity course at a local college where she has served as an adjunct professor since 2005. This session will discuss and compare available devices and explain how to get Internet service. Participants will explore types of available programs and websites, and we will walk through using technology to plan a visit to Colmar, a historic French town on the Alsace wine route. The instructor will offer suggestions on how to obtain help with your device whenever you need it, putting the Internet at your service.

**Memoir—and More—Writing Group**

Wednesdays, usually 2:00–4:30

We meet twice during the fall and spring terms, and every other week during the rest of the year. In addition to memoir, we write fiction, poetry, and personal essays. At our meetings we gently critique each other’s work. Writing groups need to be small, and we have no space for new members right now but spaces do sometimes open up. So, if you’re interested, please register in “Ongoing Activities,” and Betty Smith will be in touch if there is room.

**Already a member of a club?**

Remember to renew your club memberships each year starting winter term. We don’t want you to be dropped from the roster and miss important announcements!

Most importantly, we are looking forward to developing a play readers group that will meet in Reston. No experience required. Just come, relax, and enjoy. For further details as to what the theater group may do, please see the previous TLG—Fairfax. For more information, email Norma Reck at njreck@cs.com.

Tallwood/Fairfax Swimming Pool Parking Lot
Coordinator: Jerry Remson jerryremson@yahoo.com
When OLLI is in session, the Walking Group meets one morning each week, generally an hour before the first morning class. We gather in the Fairfax Pool parking lot next to Tallwood and walk for about 45 minutes, arriving back at Tallwood in time for the start of classes. Because our goal is camaraderie as well as exercise, all levels of walking ability and speed are accommodated. The day of the week is determined by our schedules and the weather, so it may change from week to week. Between terms we continue to walk on a weekly basis, but for longer distances and at more varied locations. Contact Jerry Remson for more information.

- Watch OLLI communications to sign up for classes with spaces still available.

Confirmation and Class Payments
- Once classes are assigned, you will receive a series of emails with your confirmed class enrollments and wait-listed courses. If you do not have an email address on file, the confirmations will be mailed to you. Confirmation emails for Add to Cart classes will be sent immediately only once after checkout.
- Read your confirmation emails and letters carefully. They will include any updates to classes, including changes in times or locations.
- Event fees must be paid in full by all participants regardless of any special transit, food, or other arrangements. OLLI cannot guarantee a refund for courses or events once you have paid and are enrolled. As such, please consider carefully before signing up for courses with fees.

Wait Lists
- OLLI does everything possible to maximize enrollment in classes, including changing venues and adjusting class capacities. If you do not make it into a class, you will be wait-listed based on the priority you assigned to the class.
- When someone drops a class, the OLLI office will call members on the wait list until the vacancy is filled. In most cases, the office will not leave a message.
