From the Desk of the Executive Director Scam Alert!

By Jennifer Disano, Executive Director

One of our members received an email purportedly from an OLLI instructor, although the email address from which the email was apparently sent is not the instructor's actual email address. The email stated that the sender (instructor) had tried unsuccessfully to order a birthday gift card online for the sender's niece and requested the member to purchase the gift card, and then notify the sender (at the phony email address).

Although on its face the request might seem to be a transparent fraud, it builds on a plausible relationship that the OLLI member might have with an OLLI instructor, in hopes that the possible relationship might make the request plausible also. We are unsure of the origins of this particular scam; however, it is likely that the action of clicking on the scam link or replying to the scam resulted in an email exposure.

To protect yourself, please be cautious and skeptical. No OLLI instructor or staff member will ever request that you purchase something from a third party on their behalf.

To learn more about the latest phishing scams associated with Mason go to [this link](#). To protect yourself from scams, please review Fairfax County advice; [click here](#).

Computer Club: Science—Opinion, Fiction, or Reality?

3rd Saturday, January 15 via Zoom

**Science—Opinion, Fiction, or Reality?
Learn in 30: Tiles and Airtags for Tracking**

By **Paul Howard**, OPCUG Program Chair

The Computer Club (OLLI Personal Computer User Group, or OPCUG) will meet with its partner, the Potomac Area Technology and Computer Society (PATACS), on Saturday, January 15, via Zoom. Program activities begin at 1:00; the Zoom session usually begins at 12:45.

Science—Opinion, Fiction, or Reality? – Presented by Lorrin Garson – There are many in our culture, and worldwide, who believe science is just another opinion among many. Not so. Using chemistry as an exemplar, the following will be discussed: (a) sources of science information, (b) publishers of science, (c) where research is done and who does it, (d) how science information is vetted, (e) errors and fraud in science, and (f) (briefly) science education.

Lorrin Garson had a long career in technical publishing of chemical information. His presentations to our computer groups are famous for their thorough research and clarity in explaining topics such as cryptography, encryption of personal data, cloud storage, and the origins of personal computers.

Learn in 30: Tiles and Airtags for Tracking – Presented by John Krout. This presentation will introduce you to tiles and airtags, small battery-powered devices that can be attached to your property. These are designed to help you find misplaced or stolen property by using an app on your smart phone or tablet.

By far the most widely publicized use of tiles and airtags is to find checked luggage lost by an airline. Tiles and airtags can also help you find your car in a large parking lot, as well as find your purse, key ring, wallet, bicycle, stroller, and even pets and small children.

A frequent meeting presenter, John was the author of many of the articles on PATACS' Zoom reference page, and many *PATACS Posts* newsletter offerings.

See full details on this meeting by [clicking here](#). For information on the Computer Club, see the [OPCUG Website](#). OPCUG dues are \$5 for 2022—see <http://ollimu.org/opcug/comm.html> for details on making payment. Attend via Zoom's cloud meeting service, beginning at 1:00. Please click [this link](#) to join the meeting and use passcode 757899 or enter meeting ID 883 4829 4760 in the Zoom app and use the above passcode.

Happy New Year!...and Why?

By **John Nash**, E-News editor

Happy New Year to everyone! I'm sure you often have wondered why the new year occurs when it does. Why isn't it in April when the flowers are blooming, or when the federal budget begins (if it does), or even rotating among the months so none will feel left out?

In the old days – around 150 BC and before - everyone used an ugly, old lunar-based calendar which had become very inaccurate over the years. The first of the year seemed to bounce around, depending on who was in power.

The first time the new year was celebrated on January 1st was in Rome in 153 B.C. The new year was moved from March to January because that was the beginning of the civil year, the month that the two newly elected Roman consuls began their one-year tenure. But this new year date was not always strictly or widely observed, and many people still celebrated on March 1 or whenever.

Finally, Julius Caesar, as dictator and "sole decider," missing a few of his wife's birthdays, created a new solar-based calendar which he named after himself and declared January 1 definitely was the official new year! So there! Sadly, the Julian calendar also had a few flaws and it was finally replaced in the 16th century by the Gregorian calendar.

Interestingly, there are many other calendars: Jewish, Chinese, Muslim, Hindu, and others based on such things as religious events, astrological occurrences, growing seasons, or whatever else that might seem reasonable at the time. We even have an OLLI calendar, but we stuck with the traditional beginning on January 1. Caesar is happy!

Poet's Corner

Courtesy of the Poetry Workshop

Three Kings Day on 37th St.

I recall one January day when winter sunshine fell about New York. It was mild on the cross street where we lived, brighter at 37th at the park, to which I took the kids.

Dozens of Christmas trees lay on the curbs along our familiar route. Traffic was light. The city, sad, disconsolate, took comfort, looking up in some surprise at the unexpected sun.

At the park wrought iron railings took us in and with the leafless branches made striped light. We were the only three that afternoon to see the winter sunlight falling on the abiding benches and the swings.

Caroline McNeil

Obituary: Pamela Hughes Cooper-Smuzynski

Pamela Cooper-Smuzynski, OLLI member since 2007, lost a battle to cancer on December 26, 2021. As an enthusiastic OLLI member, Pam particularly liked courses in the 400 series—literature, theater, and writing. She also enjoyed "Trip Tales."

Pam taught elementary school in Georgia and South Carolina, and in this area, she was the founding librarian at Sangster Elementary School in Springfield, Virginia. As an elementary school librarian, she loved books, literature, and reading, especially to and with children. She will be missed by her friends at OLLI.

Arrangements for a private celebration of her life are being planned. Further information is available at [this link](#).

Arts & Music at George Mason

No Performances until September

By Shelly Gersten, OLLI E-News Staff Writer

As Mason's campuses reopen, programs are offered at both Fairfax and Manassas campuses, along with virtual events. Proof of vaccination or a negative COVID-19 test result is required for all audience members. Dr. Linda Apple Monson produces a periodic "Notes from the Director." This email is full of interesting online performances by the students and faculty of the School of Music. If you would like to receive these bulletins, just send an email to Brianna Schoen at bschoen@gmu.edu. Also, the Center for the Arts has a website, [Mason Arts at Home](#), which has a calendar of online events and access to many past performances. Information also can be found at [CFA ticket purchase page](#), [Center for the Arts YouTube Channel](#), or the [Hylton ticket purchase page](#).

Meetings & Clubs

Please note: Physical meetings for clubs and activities are canceled until further notice in accordance with Mason’s guidelines. OLLI is conducting its classes and activities online. Refer to the university’s [coronavirus website](#) for official university updates and check the [OLLI calendar](#) for revised information.

The following list covering the next two weeks is extracted for your convenience from the master online calendar maintained by the office. The list is accurate as of mid-week but for the most up-to-date information, please view the latest forecast of coming events on our website ([News/OLLI Calendar](#)). *Note: All OLLI members are welcome at, and encouraged to attend, meetings of the Board of Directors, committees and resource groups, kick-off coffees, etc. (**bolded** below). The OLLI office has sent (or will send) emails with links and meeting passwords to club members; you may also log in at the [member portal](#) and click on ZOOM CLASS LINKS.*
